AGREEMENT AND ASSIGNMENT OF PATENT APPLICATION

Title of Invention: **Cellular Automated External Defibrillator (AED) Tracker**

Filing Date: 2017-11-07

Patent Application Number: 62/582,508

This AGREEMENT AND ASSIGNMENT OF PATENT APPLICATION ("**Assignment**") is made by the undersigned inventors (the "**Inventors**" and "**Assignors**") and Pica Product Development, LLC (the "**Assignee**"), a New Hampshire limited liability company having its primary place of business located at 4 Ash Street Extension, Derry, New Hampshire, 03038, and pertains to a patent application titled "Cellular Automated External Defibrillator (AED) Tracker".

WHEREAS, the inventors have made certain inventions, improvements, and discoveries (the "**Invention**" or the "**Inventions**") disclosed and/or claimed in the patent application (the "**Application**") filed in the United States Patent and Trademark Office ("USPTO") on 2017-11-07 and given Application No. 62/582,508;

WHEREAS, the Assignee desires to acquire, and each undersigned inventor desires to grant to the Assignee, the entire worldwide right, title, and interest in and to the invention and in and to any and all patent applications and patents directed thereto;

NOW, THEREFORE, the parties agree as follows:

1. For good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, each undersigned Inventor/Assignor hereby conveys, transfers and assigns to the Assignee, its lawful successors and assigns, and the Assignee accepts, the entire worldwide right, title, and interest in and to the invention(s), the above-identified patent application, and any and all other patent applications and patents for the invention(s) which may be applied for or granted in the United States and in all foreign countries and jurisdictions, including all provisional, non-provisional, divisional, continuation, continuation-in-part (CIP), reissue, reexamination, renewal, extension, counterpart, substitute, application(s) and extensions thereof, including the right to file foreign applications under the provisions of any treaty or convention, including all grants, such as Letters Patent, certificates, utility models, confirmations, extensions, reissues and reexamination certificates, and including all rights or priority resulting from the filing of such applications and grants resulting therefrom.
2. The Inventors authorize the Assignee, its successors, legal representatives, and assigns to file for, in the names of the Inventors, and request that the United States Patent & Trademark Office ("USPTO") and corresponding bodies in each of the other Countries issue any and all patents resulting from any of the Applications to the Assignee, its successors, legal representatives, and assigns, to be held and enjoyed by the Assignee, its successors, legal representatives, and assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the Inventors had this Assignment not been made.
3. Each Inventor represents and warrants that such Inventor has the ability to convey all rights and interests herein assigned, that there are no rights or interests outstanding inconsistent with the rights and interests granted herein, and that such Inventor will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein.
4. Each inventor shall take such steps and actions, and provide such cooperation and assistance to the Assignee and its successors, assigns, and legal representatives, in connection with the Inventions and the Applications, or for any inventions and discoveries derived therefrom, as may be necessary to effect, evidence, or perfect the Assignment to the Assignee or any assignee or successor thereto, including, but not limited to: the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, documents in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar treaties and agreements, or other lawful papers; the execution and delivery of all papers necessary in connection with any administrative or judicial proceedings. Each Inventor agrees to cooperate in the provision of information and testimony and generally to do everything reasonably possible to assist the Assignee, its successors, assigns and legal representatives to obtain and enforce proper patent protection for said invention(s), provided the expenses which may be incurred by the Inventor(s) in lending such cooperation and assistance for enforcement of any granted patent(s) are paid for by the Assignee, its successors or assigns.
5. The Inventors hereby grant and direct the Assignee, its successors, legal representatives, and assigns, to insert on this Assignment any further identification information, including but not limited to the patent application number and filing date, which may be necessary or desirable.
6. This Assignment inures to the benefit of the Assignee and its successors, assigns, and other legal representatives, and is binding on the inventors and their respective heirs, legal representatives, and assigns.

IN WITNESS WHEREOF, we, the Inventors/Assignors, have executed this Assignment on the date(s) indicated below:

AGREEMENT AND ASSIGNMENT OF PATENT APPLICATION

Title of Invention: **Cellular Automated External Defibrillator (AED) Tracker**

Filing Date: 2018-11-08

Patent Application Number: 16/183,732

This AGREEMENT AND ASSIGNMENT OF PATENT APPLICATION ("**Assignment**") is made by the undersigned inventors (the "**Inventors**" and "**Assignors**") and Pica Product Development, LLC (the "**Assignee**"), a New Hampshire limited liability company having its primary place of business located at 4 Ash Street Extension, Derry, New Hampshire, 03038, and pertains to a patent application titled "Cellular Automated External Defibrillator (AED) Tracker".

WHEREAS, the Inventors have made certain inventions, improvements, and discoveries (the "**Invention**" or the "**Inventions**") disclosed and/or claimed in the patent application (the "**Application**") filed in the United States Patent and Trademark Office ("USPTO") on 2018-11-08 and given Application No. 16/183,732 and which claims the benefit or priority of Application No. US 62/582,508 filed on 2017-11-07, and of Application No. US 62/752,284 filed on 2018-10-29;

WHEREAS, the Assignee desires to acquire, and each undersigned inventor desires to grant to the Assignee, the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications and patents directed thereto;

NOW, THEREFORE, the parties agree as follows:

1. For good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, each undersigned inventor/Assignor hereby conveys, transfers and assigns to the Assignee, its lawful successors and assigns, and the Assignee accepts, the entire worldwide right, title, and interest in and to the Invention(s), the above-identified patent application, and any and all other patent applications and patents for the Invention(s) which may be applied for or granted in the United States and in all foreign countries and jurisdictions, including all provisional, non-provisional, divisional, continuation, continuation-in-part (CIP), reissue, reexamination, renewal, extension, counterpart, substitute, application(s) and extensions thereof, including the right to file foreign applications under the provisions of any treaty or convention, including all grants, such as Letters Patent, certificates, utility models, confirmations, extensions, reissues and reexamination certificates, and including all rights or priority resulting from the filing of such applications and grants resulting therefrom.
2. The Inventors authorize the Assignee, its successors, legal representatives, and assigns to file for, in the names of the Inventors, and request that the United States Patent & Trademark Office ("USPTO") and corresponding bodies in each of the other Countries issue any and all patents resulting from any of the Applications to the Assignee, its successors, legal representatives, and assigns, to be held and enjoyed by the Assignee, its successors, legal representatives, and assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the Inventors had this Assignment not been made.
3. Each inventor represents and warrants that such inventor has the ability to convey all rights and interests herein assigned, that there are no rights or interests outstanding inconsistent with the rights and interests granted herein, and that such inventor will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein.
4. Each inventor shall take such steps and actions, and provide such cooperation and assistance to the Assignee and its successors, assigns, and legal representatives, in connection with the Inventions and the Applications, or for any inventions and discoveries derived therefrom, as may be necessary to effect, evidence, or perfect the Assignment to the Assignee or any assignee or successor thereto, including, but not limited to: the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, documents in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar treaties and agreements, or other lawful papers; the execution and delivery of all papers necessary in connection with any administrative or judicial proceedings. Each inventor agrees to cooperate in the provision of information and testimony and generally to do everything reasonably possible to assist the Assignee, its successors, assigns and legal representatives to obtain and enforce proper patent protection for said Invention(s), provided the expenses which may be incurred by the inventor(s) in lending such cooperation and assistance for enforcement of any granted patent(s) are paid for by the Assignee, its successors or assigns.
5. The inventors hereby grant and direct the Assignee, its successors, legal representatives, and assigns, to insert on this Assignment any further identification information, including but not limited to the patent application number and filing date, which may be necessary or desirable.
6. This Assignment inures to the benefit of the Assignee and its successors, assigns, and other legal representatives, and is binding on the Inventors and their respective heirs, legal representatives, and assigns.
