**ASSIGNMENT OF INVENTION
AND RELATED INTELLECTUAL PROPERTY RIGHTS**

Parties:

1 "The Inventor(s)"

Scott JEFFREY
Patrick BURKE
Peter SENTER
of Seattle Genetics Inc., 21823 30th Drive SE, Bothell, WA 98021, USA

2 "The Employer"

Seattle Genetics Inc.
of 21823 30th Drive SE, Bothell, WA 98021, USA

Recitals:

(A) The Inventor(s) is an inventor or are joint inventors of the invention or inventions entitled Targeted Pyrrolobenzodiazepine Conjugates ("the Invention") for which the patent application(s) set out in Part 2 of the Schedule hereto have been filed ("the Completion Application(s)").

(B) The Employer, either alone or jointly with other(s), intends to file further patent application(s) ("the Future Applications") for the Invention, in one or more jurisdictions, claiming priority from the Priority Application(s).

(C) The contributions of the Inventor(s) to the Invention were made in the course of the duties of the Inventor(s) as employee(s) of the Employer, and either the circumstances were such that an invention might reasonably have been expected to result from the carrying out of those duties, or the nature of those duties was such that the Inventor(s) had a special obligation to further the interests of the Employer's undertaking.

(D) The Parties believe that, either by operation of law or by virtue of an agreement entered into by the Parties before the making of the Invention, the Employer was, at the time the Invention was made, entitled to the whole of the property in the contributions of the Inventor(s) to the Invention.

(E) In case the Employer for any reason was not so entitled, and in order to ensure and to provide documentary evidence that the Employer is the owner of both the legal title and the beneficial interest in the contributions of the Inventor(s) to the Invention, including any further contributions that the Inventor(s) may have made or may make to the development or improvement of the Invention and any matter that shall be contained in the Future Applications, the Inventor(s) has or have agreed to execute this formal Assignment of all their rights title and interest in to under and arising from the Invention, the Priority Application(s), the Future Applications, and all matter that shall be contained in the Future Applications.

Operative provisions:

In consideration for the payment of £1.00 by the Employer to (each of) the Inventor(s), the receipt and sufficiency of which are hereby acknowledged by the Inventor(s):

1 The Inventor(s) HEREBY SELL(S) ASSIGN(S) AND TRANSFER(S) to the Employer absolutely and free from encumbrances, by way of current assignment of both existing and future rights and property:

1.1 all their legal and beneficial rights title and interest in Canada and the United States and all other countries of the world in to under and arising from the Invention and the Priority Application(s) and the Future Applications and all matter that shall be contained in the Future Applications, and all national and regional phases and any and all divisions, continuations and continuations-in-part of all of the aforesaid applications, and any and all patents that may be granted pursuant to any of them for the full period thereof, including any re-issues, re-examinations, renewals, extensions and Supplementary Protection Certificates, and including all rights and powers arising or accrued therefrom including the right to sue for damages and other remedies in respect of any infringement of any such rights before on or after the date hereof and to retain any damages obtained as a result of such action;

1.2 all such rights as they may have to apply for prosecute and obtain patents and other intellectual property protection anywhere in the world in respect of the Invention and the invention(s) that shall be disclosed in and all matter that shall be contained in the Future Applications to the intent that any patents or other intellectual property protection for the Invention and for such invention(s) and matter may be applied for and shall be granted in the name of and shall vest in the Employer or its successors or assigns (either alone or jointly with any co-applicants);

1.3 all such rights as they may have to claim priority from any or all of the Priority Application(s) and the Future Applications in any and all applications for patent protection for the Invention and the invention(s) that shall be disclosed in the Future Applications, such rights to be enjoyed by the Employer as from the date of filing of each patent application from which priority is claimed; to the intent that the Employer shall have and hold the rights title and interest hereby assigned as fully and entirely as the same would have been held and enjoyed by the Inventor(s) had this assignment not been made.

2 The Inventor(s) and the Employer HEREBY GRANT the firm of Mewburn Ellis LLP the power to insert in Part 3 of the Schedule to this Assignment any further identification of any existing or future patent applications in Canada or the United States or any other countries or regions of the world which shall fall within the scope of clause 1 above, as may be necessary or desirable in order to comply with the rules of the United States Patent Office or the Canadian Patent Office or any other patent office for recordation of this document. It is understood and agreed that the Employer's attorneys Mewburn Ellis LLP have represented only the Employer and will continue to represent only the Employer and its successors and assigns with respect to this Assignment.

3 The Inventor(s) HEREBY UNDERTAKE(S) that at the request and cost of the Employer or its successors or assigns they will at all times hereafter promptly do all such acts and execute all such documents (including but not limited to documents required to be signed by or on behalf of inventors in the course of any and all Canadian or United States or any other patent applications which relate to the Invention or to any invention(s) that shall be disclosed in the Future Applications and any and all divisionals, continuations and continuations-in-part of any such applications) as may be reasonably necessary or desirable to secure or to provide further evidence of the vesting in the Employer or its successors or assigns of all legal and beneficial rights title and interest intended to be assigned to the Employer hereunder and to confirm the title of the Employer or its successors or assigns to all such rights title and interest and to assist (in the course of litigation or interference or any other proceedings or otherwise) in the resolution of any question concerning the Invention or the invention(s) that shall be disclosed in the Future Applications or any application for patent or other intellectual property protection for any of the said inventions or any intellectual property protection granted pursuant to any such application.

4 The Inventor(s) HEREBY REQUEST(S) the US Commissioner of Patents and the relevant authorities in all countries of the world to issue any patents granted for the Invention or the invention(s) that shall be disclosed in the Future Applications in the name of the Employer or its successors or assigns (either alone or jointly with any co-applicants) in accordance with this assignment.

5 This assignment and undertaking shall be binding upon the heirs, executors, administrators, successors and/or assigns of the Inventor(s) and shall enure to the benefit of any heirs, executors, administrators, successors and/or assigns of the Employer.

6 This agreement shall be governed by and interpreted in accordance with the laws of the United States of America and the state of Washington, and the courts of the United States of America and the state of Washington shall have exclusive jurisdiction to settle any disputes which may arise in connection with this agreement.

AS WITNESS the signatures of the Inventor(s) and of a duly authorised officer of the Employer
