## ASSIGNMENT

WHEREAS I, Chad Martin (hereinafter, "Assignor"), am the inventor of the invention entitled:

Modular Piping Manifold System for Heat Exchangers

as described in United States Patent Application Nos. 62/664,934, filed on April 30, 2018, 16/398,882, filed on April 30, 2019 and in any later-filed United States and foreign patent applications related thereto (the "Invention");

WHEREAS, E&C FinFan, Inc., having its principal place of business at 3055 Torrington Drive, Ball Ground, GA 30107 (hereinafter "Assignee"), wishes to acquire all of the rights, title and interest of Assignor therein to thereby become sole owner of said Invention;

NOW, THEREFORE, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, that I, as Assignor hereby sell, assign, transfer, and set over unto Assignee, its lawful successors and assigns, free of all encumbrances, the entire right, title, and interest of Assignor in, to, and under said Invention and the inventions claimed therein, including: all original, reissued, and reexamined letters patent that originate therefrom, all rights of priority on the basis of this Invention, and all applications for Letters Patent which may hereafter be filed for this invention in any foreign country and all Letters Patent which may be granted on this invention in any foreign country, all continuation, divisional, continuation-in-part and substitute patent applications that may be filed therefor, and all original, reissued, and reexamined letters patents that may issue from said continuation, divisional, continuation-in-part and substitute applications (collectively, the "Patents"), together with the rights to all income derived from said Patents, including the right to sue for past infringement thereof and to recover all damages therefrom for its own use and behalf and for the use and behalf of its successors and assigns or other legal representatives; said Patents to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made;

AND THAT I AGREE, at the request and expense of Assignee, to perform such proper additional acts, and to execute such additional documents as are deemed necessary by the governmental agencies having jurisdiction over said Patents to effect the transfer of all of the Assignor's right, title and interest therein to Assignee, its successors and assigns. In furtherance thereof, the Assignor hereby authorizes such governmental agencies to identify Assignee as the owner of all letters patent issuing from applications pending among said Patents. I further hereby authorize and request my attorney to insert the filing date and application number of said application when known;

AND, I further represent and warrant that I have the full right to convey the interest assigned by this Assignment, and that I have not granted any rights inconsistent with the rights granted herein.
