## **ASSIGNMENT AGREEMENT**

For good and valuable consideration, the receipt of which is hereby acknowledged, **MAG OPTICS LTD.**, (hereinafter "ASSIGNOR"), a corporation organized under the laws of the United Kingdom, having a principle place of business at 11 Regents Plaza, 6 Greville Road, London NW6 5HU United Kingdom, has sold, assigned and transferred and does hereby sell, assign and transfer unto **HMG INNOVATIONS LTD.**, (hereinafter "ASSIGNEE"), a corporation organized under the laws of the United Kingdom, having a principle place of business at 11 Regents Plaza, 6 Greville Road, London NW6 5HU United Kingdom, and its successors, assigns and legal representatives, the entire right, title and interest for certain inventions relating to improvements in and to certain patents and patent applications set forth in EXHIBIT A, together with the entire right, title and interest in and to said application, and in and to Letters Patent which may be issued upon said application, and upon any division, extension, continuation or reissue thereof. **ASSIGNOR** further authorizes the said **ASSIGNEE** to apply for Letters Patent in any and all countries directly in its own name, and to claim the priority of the filing date of the said application for Letters Patent under the provisions of any and all international conventions and treaties.

**ASSIGNOR** hereby authorizes and requests that any and all patent offices including, but not limited to, the United States Patent and Trademark Office, the World Intellectual Property Organization and the European Patent Office, and similarly appointed representatives of all foreign countries to issue or grant Letters Patent or other patent rights upon the aforesaid application, division, extension, continuation or reissue, to the **ASSIGNEE** for the sole use and enjoyment of said **ASSIGNEE**, its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted, the same as they would have been held and enjoyed by **ASSIGNOR** had this assignment not been made, and **ASSIGNOR** hereby authorizes and requests the equivalent authorities in foreign countries to issue the patents of their respective countries to the said **ASSIGNEE**.

**ASSIGNOR** agrees that, when requested, **ASSIGNOR** will, without charge to said **ASSIGNEE**, but at its expense, sign all papers, take all rightful oaths, and do all acts which may

be necessary, desirable or convenient for securing and maintaining patents for said inventions in all countries and for vesting title thereto in said **ASSIGNEE**, its successors, assigns and legal representatives or nominees.

**ASSIGNOR** covenants with said **ASSIGNEE**, its successors, assigns and legal representatives, that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license or other encumbrance.

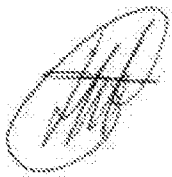

This Agreement may be executed in counterparts, each of which shall be deemed an original, and all of which shall together constitute one and the same instrument. Any individual signing this Agreement on behalf of a party represents and warrants that he or she has full authority to do so.
