ASSIGNMENT

WHEREAS, Patrick David Fisher of 38 Vernon St., Spruce Grove, Alberta, Canada T7X0B6; Benjamin Ryan Northcott of 15407 – 138B Street NW, Edmonton, Alberta, Canada T6V1P8; and Curtis Michael Dublanko of 2010 Redtail Common NW, Edmonton, Alberta, Canada T5S0H2 (collectively the “Assignors” and each an “Assignor”), have invented certain new and useful inventions described in United States Patent Application No. 14/856,439 entitled DISTRIBUTED NETWORKING SYSTEM AND METHOD filed on September 16, 2015 in the United States Patent and Trademark Office; and

WHEREAS, Profire Energy, Inc, a corporation organized in the State of Nevada, having a business address of 321 South 1250 West, Suite 1, Lindon, Utah 84042 (“Assignee”), desires to secure the entire right, title, and interest therein;

NOW, THEREFORE, in consideration of one dollar (\$1.00) and for other good and valuable consideration, the receipt and sufficiency whereof is hereby acknowledged, each of said Assignors hereby sells, assigns, and transfers unto said Assignee:

The entire right, title and interest in and to said inventions in the above-identified United States patent application and any right, title, and

interest such Assignor may have in any prior application, including provisional applications, to which priority is claimed in said application, and in all divisions, continuations and continuations-in-part of said application and any and all other non-provisional applications thereof, and substitutes and reissues and extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, including any rights to claim priority, and in all patents issuing thereon in the United States and Foreign countries.

The right to file United States and foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

Each Assignor hereby authorizes the Assignee to apply for and receive any and all United States and foreign patents relating to such inventions or improvements in its own name.

Each Assignor hereby authorizes and requests the issuing authority to issue any and all United States and foreign patents granted on such inventions or improvements to and in the name of the Assignee.

Each Assignor warrants and covenants that no assignment, grant, mortgage, license or other agreement or encumbrance affecting the rights and property herein conveyed has been or will be made or entered into by said Assignor, and that the full right to convey the same as herein expressed is possessed by said Assignor.

Each Assignor covenants to carry out in good faith the intent and purpose of this agreement, and when requested by and at the expense of the Assignee, to execute all lawful papers and to perform all other lawful acts which the Assignee may request of said Assignor to make this Assignment fully effective, including, by way of example but not

of limitation, to execute all non-provisional, divisional, continuing, substitute, renewal and reissue, and all other patent applications relating to any and all improvements relating to the invention; to execute all rightful oaths, declarations, assignments, powers of attorney and other papers; to communicate to the Assignee all facts and provide to the Assignee all documents and things known and accessible to the undersigned relating to such improvements and the history thereof, and testify as to the same in any interference, litigation or other proceeding relating thereto; and generally to do everything which the Assignee shall consider desirable for vesting title to such inventions or improvements in the Assignee, and to secure, maintain, defend and enforce valid and enforceable patent protection for the invention.

Each Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.

Each Assignor hereby authorizes the attorneys of Clegg, P.C. to insert herein above the application serial number and filing date where applicable when known.

Each Assignor hereby agrees and acknowledges that the sale, assignment and transfer of rights and property set forth herein is and shall be irrevocable and binding upon the heirs, assigns, representatives and successors of said undersigned Assignor and extend to the successors, assigns and nominees of the Assignee.
