WHEREAS, Assignee desires to own the PATENT RIGHTS of Assignor to exploit the intellectual property;

WHEREAS, Assignor has determined that the exploitation of the intellectual property by Assignee through the assignment of the intellectual property rights, including, without limitation, the PATENT RIGHTS, is in the best interest of Assignor and is consistent with its educational and research missions and goals;

NOW, THEREFORE, for good and valuable consideration set forth in the Patent Assignment Agreement previously executed by the parties, the receipt and sufficiency of which is hereby acknowledged, the said ASSIGNOR has sold, assigned, transferred and set over, and by these presents does hereby sell, assign, transfer and set over, unto the said ASSIGNEE, its successors, legal representatives and assigns, the entire right, title and interest in, to and under the PATENT RIGHTS and all divisions, renewals, continuations, continuations-in-part and any other application claiming priority thereof, and all Patents of the United States which may be granted thereon and all reissues and extensions thereof, and all inventions described and claimed in said patents and applications; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said inventions in any country or countries foreign to the United States,

together with the right to file such applications and the right to claim for the same the priority rights derived from said United States applications under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for said inventions in any country or countries foreign to the United States and all extensions, renewals and reissues thereof, all of the foregoing to be held and enjoyed by ASSIGNEE for its own use and for the use of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR if the assignment to ASSIGNEE had not been made.

AND ASSIGNOR HEREBY authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to the said ASSIGNEE, its successors, legal representatives and assigns, in accordance with the terms of this instrument.

AND ASSIGNOR HEREBY covenants and agrees that it has full right to convey the entire interest herein assigned, and that it has not executed, and will not execute, any agreement in conflict herewith.

AND ASSIGNOR HEREBY further covenants and agrees that it will communicate to the said ASSIGNEE, its successors, legal representatives and assigns, any facts known to it respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, reissue and foreign applications, make all rightful oaths, and generally do everything possible to aid the said ASSIGNEE, its successors, legal representatives and assigns, to obtain and enforce proper protection for said inventions in all countries.

This Agreement may be executed in counterparts, each of which shall be deemed to be an original and together shall constitute a single instrument.

IN WITNESS WHEREOF, this Assignment is executed by the undersigned on the date(s) opposite the undersigned name(s).
