Whereas, we, **Steven Salomon** residing at 305 South Ladd Court, Daniel Island, South Carolina 29492, and **Gail Salomon** residing at 305 South Ladd Court, Daniel Island, South Carolina 29492 (hereinafter referred to as "Assignors"), have invented certain new, original, and useful improvements in an invention entitled Natural Insect Repellent Compositions and disclosed in U.S. Patent Application No. 13/200,767, filed September 30, 2011 (U.S. Patent No. 8,999,407, issued April 7, 2015); and

Whereas **Mission Essentials, LLC** (hereinafter referred to as "Assignee") having a place of business at 295 Seven Farms Drive, Suite C216, Daniel Island, South Carolina 29492, is desirous of acquiring the entire right, title and interest in and to said invention and in and to any Letters Patent that may be or have been granted therefore in the United States and its territorial possessions and in any and all foreign countries;

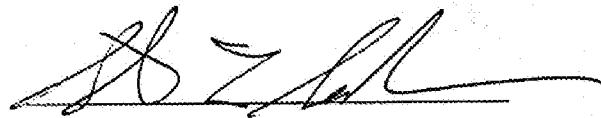

Now, therefor, for good and valuable consideration, the receipt of which is acknowledged, Assignors do sell, assign, and transfer to Assignee their full and exclusive right, title, and interest in the invention, Patent Application, and Patent (as well as such rights in any divisions, continuations in whole or part, reissues, renewals, or substitute applications) in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the aforesaid application) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part, reissues, renewals, or substitute applications) filed claiming the benefit of the Patent Application.

We hereby authorize and request the Patent Office Officials in the United States and its territorial possessions and any and all foreign countries to issue any and all of said Letters Patent, when granted, to said Assignee as the assignee of our entire right, title and interest in and to the same, for the sole use and behoof of said Assignee, its successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by us had this Assignment and sale not been made.

Further, we agree that, upon request and without further compensation, we will communicate to said Assignee or its representatives any facts known to us respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, substitute, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said Assignee, make all rightful oaths, and, generally do everything possible to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and its territorial possessions and in any and all foreign countries. Toward this end, Assignors agree to cooperate with Assignee in the prosecution of the Application or maintenance of the Patent and foreign counterparts; execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
