ASSIGNMENT

In exchange for valuable consideration provided by **The WellBoss Company, LLC**, the receipt and sufficiency of which being hereby acknowledged, we, **David Hughes, Evan Lloyd Davies, and Luis Miguel Avila**, being co-inventors of improvements in downhole setting tool technology (sometimes hereinafter referred to as “ASSIGNOR”, or collectively referred to as “ASSIGNORS”), including as claimed, disclosed, shown, or otherwise described in United States of America provisional patent application Serial No. 62/661,228, filed April 23, 2018, do each hereby ASSIGN, SELL, TRANSFER, and CONVEY to **The WellBoss Company, LLC**, a TX limited liability company having a business address of 12450 Cutten Rd., Houston, TX 77066 USA (sometimes hereinafter called “ASSIGNEE”), its successors and assigns, the entire right, title and interest throughout the world in and to:

1. Said invention(s) disclosed, described, shown, and claimed in U.S. non-provisional patent application Serial No. 16/387,985, filed April 18, 2019; and sometimes referred to as “*Downhole Tool with Tethered Ball*”;
2. Said invention(s) disclosed, described, shown, and claimed in PCT international patent application Serial No. PCT/US2019/028061, filed April 18, 2019; and sometimes referred to as “*Downhole Tool with Tethered Ball*”;
3. All applications and patents worldwide on said invention(s) and/or claiming priority or benefit, directly or indirectly, in whole or in part, to the foregoing applications, including but not limited to all United States non-provisional applications, Patent Cooperation Treaty applications, foreign (non-US) filed applications, national stage entry applications;
4. All applications for patent or like protection on said invention(s) that have now been or may in the future be made by us or our legal representatives, including any continuation, continuation-in-part and any other utility applications that may be based on this invention(s), whether in the United States of America or any other place anywhere in the world;
5. All patents and like protection that have now been or may in the future be granted on said invention(s) to us or our legal representatives, whether in the United States or in any other country or place anywhere in the world;
6. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present and future laws and statutes;
7. All rights of action on account of past, present and future unauthorized use of said invention(s) and for infringement of said patents and like protection;

8. The right in ASSIGNEE to file in its name applications for patents and like protection for said invention(s) in any country or countries foreign to the United States; and
9. All international rights of priority associated with said invention(s), applications, patents, and like protection;

Each ASSIGNOR covenants that he/she, and any applicable heirs, legal representatives, assigns, administrators, and executors, will, at the expense of ASSIGNEE, its successors and assigns, execute all papers and perform such other acts as may be reasonably necessary to give ASSIGNEE, its successors and assigns, the full benefit of this Assignment.

Each ASSIGNOR covenants, represents, and warrants that: he/she has disclosed the best mode known to him/her related to said invention, knows of no documents, disclosures, uses, or other prior art that would prevent patenting said invention, and has not transferred or assigned (and is not under an obligation to transfer or assign) the rights assigned, sold, and conveyed herein to ASSIGNEE to another person or entity.

Each ASSIGNOR further covenants, represents, and warrants that: he/she is an original and true inventor of said invention; the right, title, and interest herein conveyed is free and clear of any encumbrance; and he/she has the full right to convey the same as herein expressed.

This Assignment may be signed in duplicate originals or counterparts by original or certified e-signature, which may be transmitted via email, or fax, and which shall be the equivalent to a signed original.
