WHEREAS, Robe Lighting s.r.o. (hereinafter referred to as "Assignee"), a limited liability company organized and existing under the laws of the Czech Republic, Assignee, having its principal office and place of business at Hazovice 2090, 756 61 Roznov pod Radhostem, Czech Republic, desires to acquire the Undersigned's entire right, title and interest in and to the invention, and in and to the application and any Letters Patent that may issue thereon;

WHEREAS, the Undersigned is, or was at the time the Invention was made, an employee of Assignee or was under contractual obligation with the Assignee, and made the inventions and/or discoveries in the course of carrying out their duties as such employees or contractual duties; and

WHEREAS, the Undersigned agrees that the duties were such that the same inventions and/or discoveries might reasonably be expected to result therefrom and that in consideration of such employment or contract their interest in and to the inventions and or discoveries is held in trust for and is the absolute property of the Assignee or whomsoever the Assignee may nominate;

NOW, THEREFORE, for and in consideration of Ten Euro (€10), and other good and valuable consideration, the receipt of which is hereby acknowledged, the Undersigned:

Hereby sells, assigns and transfers to the Assignee, its successors, assigns and legal representatives, the entire right, title and interest for the United States and all other counties and patent jurisdictions, in and to any and all improvements which are disclosed in the application for United States Letters Patent, Application No. 16/425,554 filed May 29, 2019, if not identified here by filing date and application number, executed by me on even date, entitled:

and in and to the application and all applications that claim priority to the Application No. 16/425,554 and all provisional, divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent which have been or shall be filed in the United States and all other countries and patent jurisdictions on any of the improvements; and in and to all original and reissued patents which have been or shall be issued in the United States and all other countries and patent jurisdictions on the improvements; and in and to all utility models, industrial models, certificates of invention, and designs on the improvements;

Warrants that they have not knowingly conveyed to others any right in the Invention and/or discoveries, applications or patents or any license to use the same or to make, use or sell anything embodying or utilizing any of the Invention and/or discoveries; and that the Inventors have good right to assign the same unto the Assignee without encumbrance;

Agrees that the Assignee may apply for and receive Letters Patent for the improvements in its own name; and that, when requested, without charge to but at the expense of the Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the Undersigned will execute all divisional, continuing, substitute, renewal, reissue and all other patent applications, and all other like rights of exclusion in any country or other patent jurisdiction on any and all the improvements; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to the Assignee, its successors, assigns and representatives, all facts known to the Undersigned relating to the improvements and the history thereof; and generally do everything possible which the Assignee, its successors, assigns and representatives shall consider desirable for aiding in securing and maintaining proper patent protection for the improvements and vesting title to the improvements and all applications for patents and all patents on the improvements, in the Assignee, its successors, assigns and legal representatives;

Agrees that the Undersigned will upon request of the Assignee, render prompt assistance and cooperation in the prosecution of legal proceedings involving the improvements, the applications and patents granted thereon, including reexaminations, reissues, interferences, priority contests, public use proceedings and court proceedings, and testify in such proceedings if requested, provided, however, that the expense which may be incurred by the Undersigned in lending such assistance and cooperation be paid by the Assignee; and
