and in and to said applications and Patents and all divisional, continuing, substitute, renewal, reissue, and all other applications for U.S. Patent and all Non-US applications for Patent or other related property rights in any and all countries and regions which have been or shall be filed on any of said inventions disclosed in said application; and in and to all original and reissued patents or related foreign documents which have been or shall be issued on said inventions;

Authorize and request the Commissioner of Patents of the United States, and the Commissioner of Patents of any country or region, to issue to said Assignee, the corporation above named, its successors, assigns and legal representatives, in accordance with this assignment, any and all United States Patent and Non-US Patent on said inventions or any of them disclosed in said applications and patents;

Agree that said Assignee may apply for and receive Patent or rights of any other kind for said inventions, or any of them, in any country and region; and may claim, in applications for said Patents, in said Patents, or other rights, the priority of the aforesaid United States and Non-US Patents applications and Patents, under the provisions of the International Convention of 1883 and later modifications thereof, under the Patent Cooperation Treaty, under the European Patent Convention or

under any other available international agreement; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the under-signed or the undersigned's executors or administrators will, for the United States and all other countries and regions, execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications or other documents on any and all said inventions; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns and representatives, all facts known and documents available to the undersigned relating to said inventions and the history thereof; testify in all legal proceedings; and generally do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said inventions and for vesting title to said inventions and all applications for patents, or related foreign rights and all patents on said inventions, in said Assignee, its successors, assigns and legal representatives;

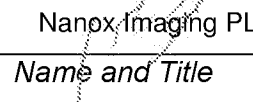

Grant the firm of Yagod Morris and Associates, the power to insert in this Assignment any further identification which may be necessary or desirable for recordation of this Assignment; and

Covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
