NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, we/I have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, at least as early as the filing date of said application, our/my entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the invention(s) described in said application, together with our/my entire right, title and interest in and to said application and such Patents as may issue thereon or claim priority under United States law or international convention, including but not limited to non-provisionals, continuations, divisionals, reissues, reexaminations, extensions, and substitutions of said application or such Patents, and any right, title and interest we/I may have in provisional applications to which said application claims priority (e.g., U.S. Provisional Application 62/594,379, filed on 12/04/2017); said invention(s), applications and Patents to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Patents may be granted as fully and entirely as the same would have been held by us had this assignment and sale not been made; we/I hereby convey all of our/my rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Patents including but not limited to any cause(s) of action and damages accruing prior to this assignment.
