confirm our obligation to and hereby sell, assign and convey, unto Assignee, its successors and assigns, our entire right, title and interest -

(1) in and to inventions described in a patent application titled "BATTERY POWERED CORDLESS CLEANING SYSTEM" for which we filed United States Patent Application No. 12/580,878 (Atty. File No. 025818-9542-00) (hereinafter the "U.S. utility patent application"), which application is a continuation-in-part of United States Patent Application Serial No. 12/405,033, filed March 16, 2009, which claims the benefit of United States Provisional Patent Application No. 61/036,720, filed March 14, 2008; which application is also a continuation-in-part of United States Patent Application Serial No. 29/326,368, filed October 16, 2008, United States Patent Application Serial No. 29/326,362, filed October 16, 2008 and United States Patent Application Serial No. 29/326,364, filed October 16, 2008; which application also claims the benefit of United States Provisional Patent Application No. 61/105,891, filed October 16, 2008; United States Provisional Patent Application No. 61/105,899, filed October 16, 2008 and United States Provisional Patent Application No. 61/105,896, filed October 16, 2008 (hereinafter, collectively, the "underlying U.S. patent applications");

(2) in and to the U.S. utility patent application, and the underlying U.S. patent applications, in and to all other patent applications (including divisional, continuation, continuation-in-part, 35 U.S.C. §111(b) provisional, 35 U.S.C. §111(a), and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said inventions now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. utility patent application and the underlying U.S. patent applications, and agree that any patent applications of any foreign countries which may be filed shall be filed in the name of our Assignee with a claim to

priority based on either or both of the U.S. utility patent application and the underlying U.S. patent applications.

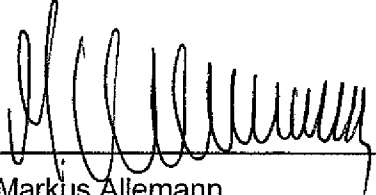

And we hereby agree that we will, upon demand of Assignee, its successors or assigns, and without further consideration to us, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by us.

And the Commissioner of Patents and Trademarks of the United States is hereby authorized and requested to issue said patent or patents to Assignee.
