ASSIGNORS authorize the United States Patent and Trademark Office and/or any foreign patent offices to issue any patents resulting from the Patent Application or claiming priority to the Patent Application to ASSIGNEE. The right, title, and interest is to be held and enjoyed by ASSIGNEE as fully and exclusively as it would have been held and enjoyed by ASSIGNOR had this assignment not been made.

invention throughout the world for the benefit of ASSIGNEE; (e) execute all instruments proper to carry out the intent of this instrument; and (f) perform such other acts as ASSIGNEE lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

ASSIGNORS do hereby represent to and covenant with ASSIGNEE, that all of the above named inventors are the original, first and joint inventors of the invention or inventions disclosed in and/or claimed by the Patent Application; that at the time of making this assignment we are fully entitled to make the foregoing conveyance; and that the rights and property conveyed herein are free and clear of any encumbrance.

ASSIGNORS agree that we will not, during the pendency of the Patent Application, nor thereafter, make, use or sell items embodying said invention or in any way exploit said invention for our own behalf or for others, nor aid or abet others to do so, without first obtaining the written consent of ASSIGNEE.

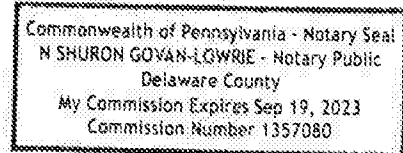

I do hereby certify that no representations have been made to me or relied upon by me as an inducement for this assignment and agreement other than as is herein specifically set forth.
