	<i>Filing Date</i>	April 17, 2019

WHEREAS Thomas Denniss of SYDNEY, Australia ("Assignor"), has invented a certain new and useful invention entitled APPARATUS AND METHOD FOR EXTRACTING ENERGY FROM A FLUID, the application to obtain United States Letters Patent for which is identified above; and

WHEREAS, Wave Swell Energy Limited, a business entity formed under the laws of Australia and having a business address of 50 Camberwell Rd., Hawthorn East  
Victoria 3123, Australia ("Assignee"), is desirous of acquiring the entire right, title, and interest in the same;

NOW, THEREFORE, in consideration of one dollar (\$1.00), the receipt and sufficiency whereof is hereby acknowledged, and other good and valuable consideration, the Assignor, by these presents, does hereby sell, assign, and transfer unto said Assignee, the full and exclusive right to the said invention and in and to said application and any and all provisionals, non-provisionals, divisions and continuations, substitutes and reissues relating to said application and the entire right, title, and interest in, to and under any and all Letters Patent of the United States and foreign countries that may issue or be granted on said invention. This Assignment is effective, *nunc pro tunc*, as of October 17, 2016.

The Assignor hereby authorizes the Assignee to apply for and receive any and all United States and foreign patents relating to such improvements in its own name.

The Assignor hereby authorizes and requests the issuing authority to issue any

and all United States and foreign patents granted on such improvements to and in the name of the Assignee.

The Assignor warrants and covenants that no assignment, grant, mortgage, license or other agreement or encumbrance affecting the rights and property herein conveyed has been or will be made or entered into by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned.

When requested by and at the expense of the Assignee, the Assignor covenants to carry out in good faith the intent and purpose of this agreement, to execute all provisional, non-provisional, divisional, continuing, substitute, renewal and reissue, and all other patent applications relating to any and all improvements relating to the invention; to execute all rightful oaths, declarations, assignments, powers of attorney and other papers; to communicate to the Assignee all facts and provide to the Assignee all documents and things known and accessible to the undersigned relating to such improvements and the history thereof, and testify as to the same in any interference, litigation or other proceeding relating thereto; and generally to do everything which the Assignee shall consider desirable for vesting title to such improvements in the Assignee, and to secure, maintain, defend and enforce valid and enforceable patent protection for the invention.

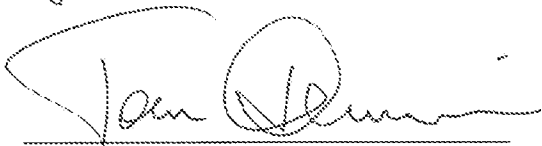

The Assignor hereby agrees and acknowledges that the sale, assignment and
