PATENT ASSIGNMENT

WHEREAS, David M. Pelzer (“Assignor”), a citizen of the United States, residing at 16864 280th Street, Redfield, IA 50233, is a co-inventor and co-owner of the entire right, title, and interest in and to certain inventions in the intellectual property described in Exhibit A;

WHEREAS, Assignor certifies he is a co-owner of the patent applications and issued patent described in Exhibit A as well as a co-owner of the inventions described in the patent applications and issued patent; and

WHEREAS, Assignor certifies that he has full authority under state and federal law to make this assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, effective as of December 1, 2019:

Assignor agrees to assign and transfer and does hereby assign and transfer unto **Matthew Pelzer**, a citizen of the United States, residing at 16864 280th Street, Redfield, IA 50233, its successors and assigns (“Assignee”), the entire right, title and interest in and to said inventions, said patent applications, and said patent as well as the right to file any nonprovisional, division, continuation or continuation-in-part claiming the benefit of said applications. Assignor further assigns to Assignee any and all improvements in said inventions made by Assignor or made by Assignor jointly with others. Assignor additionally assigns to Assignee any and all Letters Patent and reissues and extensions thereof, of the United States of America and countries foreign thereto (including the right to apply for Letters Patent in foreign countries in Assignees’ own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), which have been or may be granted thereon or on any divisional, continuation (in whole or in part), renewal, reissue or other or further application based in whole or in part upon said inventions or improvements thereof. All rights granted hereunder are to be held and enjoyed by Assignee as fully and exclusively as they would have been by Assignor had this assignment and transfer not been made.

Assignor does further agree for myself and my heirs, executors and administrators, to execute and deliver without further consideration any further applications, assignments and documents, and to perform such other acts as Assignee deems necessary to fully secure Assignee’s interest as aforesaid and to obtain or maintain Letters Patent in any and all countries, and to execute documents, testify and take actions necessary for Assignee to establish the validity or infringement of said patent;
