RECITALS:

A. Borrower and Lender have entered into a certain Master Credit Agreement dated as of the Effective Date (as amended, restated, supplemented, addended and/or otherwise modified from time to time, the "**Loan Agreement**").

B. As a condition precedent to the making of any loans or other credit accommodations by Lender under the Loan Agreement, Grantor has executed and delivered to Lender that certain Master Security Agreement dated as of the Effective Date, made by and among Grantor and Lender (as amended, restated, supplemented, addended and/or otherwise modified from time to time, the "**Security Agreement**").

C. Under the terms of the Security Agreement, Grantor has granted to, and in favor and for the benefit of, Lender, a security interest in, among other property, certain intellectual property of Grantor, and has agreed to execute and deliver this IP Security Agreement, for recording with national, federal and state government authorities, including, without limitation, the United States Patent and Trademark Office and the United States Copyright Office.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby agrees with Lender as follows:

1. **GRANT OF SECURITY.** Grantor hereby pledges and grants to, and in favor and for the benefit of, Lender a security interest in and to all of the right, title and interest of Grantor in, to and under the following (the "**IP Collateral**"):

1.1 the patents and patent applications set forth in Schedule 1 attached hereto (and incorporated herein, and made a part hereof, by this reference) and all reissues, divisions, continuations, continuations-in-part, renewals, extensions and reexaminations thereof and amendments thereto (the "**Patents**");

1.2 the trademark registrations and applications set forth in Schedule 2 attached hereto (and incorporated herein, and made a part hereof, by this reference), together with the goodwill connected with the use thereof and symbolized thereby and all extensions and renewals thereof (the “**Trademarks**”), excluding only United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant, attachment or enforcement of a security interest therein would, under applicable federal law, impair the registrability of such applications or the validity or enforceability of registrations issuing from such applications;

1.3 the copyright registrations and applications, and the copyright registrations and applications exclusively licensed to Grantor, set forth in Schedule 3 attached hereto (and incorporated herein, and made a part hereof, by this reference), and all extensions and renewals thereof (the “**Copyrights**”);

1.4 all rights of any kind whatsoever of Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

1.5 any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

1.6 any and all claims and causes of action with respect to any of the foregoing, whether occurring before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. **RECORDATION**. Grantor hereby authorizes the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights and any other government officials to record and register this IP Security Agreement upon request by Lender.

3. **LOAN DOCUMENTS**. This IP Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of Lender with respect to the IP Collateral are as provided by the Loan Agreement, the Security Agreement and related documents, and nothing in this IP Security Agreement shall be deemed to limit or vitiate such rights and remedies.

4. **EXECUTION IN COUNTERPARTS**.
