CONFIRMATORY ASSIGNMENT

Application No.: 15/526,097

Filed: May 11, 2017

Title: Chimeric Protein

WHEREAS Edward Hodgkin's ownership rights in the above-mentioned application and invention or improvements described therein belong to Syncona Partners LLP, by virtue of his employment;

WHEREAS the parties wish to confirm the transfer of these rights in a document suitable for recording with the United States Patent & Trademark Office.

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned hereby assign/assigns to Syncona Partners LLP, Gibbs Building, 215 Euston Road, London United Kingdom, NW1 2BE (hereinafter "Assignee"), its successors and assigns, the entire right, title and interest in the invention or improvements of the undersigned disclosed in the above-identified patent application, and in said application and any and all other applications, both in the United States and in other countries, which the undersigned may file or be named as an inventor, either solely or jointly with others, on said invention or improvements, and in any and all letters patents of the United States and in any and all patents of other countries, which may be obtained on any of said applications, and in any or all reissues, reexaminations, supplemental examinations, inter partes reviews, oppositions, post-grant reviews, supplementary protection certificates, and/or extensions of any of the foregoing thereof; including without limitation, the right to bring suit and to claim and retain all damages and/or seek other remedies for the past, present and future infringement and/or misappropriation of any of the foregoing, and the right of priority, including without limitation to claim priority benefit of or to said patent applications.

The undersigned hereby authorize/authorizes and request/requests the Commissioner for Patents of the United States Patent Office to issue any said United States letters patent/patents to said Assignee.

The undersigned state/states that the application listed above is or was made or authorized to be made by them/her/him. The undersigned believe/believes themselves/herself/himself to be the original inventor or an original joint inventor of a claimed invention in the application listed above. The undersigned acknowledge/acknowledges that any willful false statement made by themselves/herself/himself in this paragraph is punishable under 18 U.S.C. §1001 by fine or imprisonment of not more than five years, or both.

The undersigned warrant/warrants themselves/herself/himself to be the owners of the interest herein assigned and to have the right to make this assignment and further warrant/warrants that there are no outstanding prior assignments, licenses, or other rights in the interest herein assigned except in favor of Assignee.

For said consideration the undersigned hereby agree/agrees, upon the request of Assignee and at no expense to the undersigned, to execute any and all applications on said inventions, including without limitation for the reissue, reexamination, supplementary protection certificate or extension thereof and any oath, declaration or affidavit relating thereto that said Assignee may deem necessary or expedient, and to cooperate to the best of the ability of the undersigned with and perform any and all affirmative acts requested by Assignee to prepare, file, prosecute, maintain, defend, enforce and vest in Assignee the rights, title and interests assigned herein, including without limitation, preparing and executing statements and giving and producing evidence in support thereof,

whereby said rights, title and interests will be held and enjoyed by said Assignee to the full end of the term for which said patents may be granted as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.

WITNESS my hand this 31st day of May, 2018.
