ASSIGNMENT

We, Amanda Wallace and Elena Hughes of Woodland Hills, California and Simi Valley, California respectively, represent that we have invented a new design for an "Eye Mask" for which we have executed an application for Letters Patent of the United States of America on December 9, 2019, under Serial No. 29/716,314.

For valuable consideration, the receipt and legal sufficiency of which we acknowledge, effective December 9, 2019 we have sold and do hereby sell, assign, transfer and set over unto AVEZZI, LLC, its successors and assigns, the entire right, title and interest in and to the design and all improvements thereon, in and to the application for letters patent thereon, in and to applications pertaining to or based upon the design and application, including divisional and continuing applications and continuations-in-part, and in and to any and all letters patent which may be granted and issued on the design and applications, or any of them, in the United States of America, its territories and possessions, and in all countries foreign thereto, together with and including all priority rights based upon any and all applications in the United States of America covered by this Assignment.

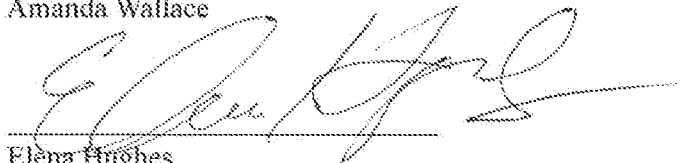

We also agree that we will, at the request of AVEZZI, LLC, execute any and all applications for letters patent for the design, execute any and all other papers and documents and do all other and further lawful acts that AVEZZI, LLC may deem necessary or desirable to obtain letters patent on the design, to secure the grant of such letters patent and to protect and vest in AVEZZI, LLC the undivided interests in the right, title and interest in the design, applications and letters patent.

We also authorize and empower AVEZZI, LLC, its successors and assigns to apply for and obtain, in its or their own names, letters patent for the design before competent International Authorities and in any and all countries foreign to the United States in which applications for letters patent or designs can be so made or letters patent or design registrations so obtained.
