have invented one invention (hereinafter referred to as "said invention") disclosed in an application for Letters Patent of the United States titled "A Combination Current Sensing Device" (hereinafter referred to as "said application"), said application having been already filed in India on July 17, 2017, Application No. 201721025393

WHEREAS,

- 1) MAGLAB LIMITED, having its principal office at: Güterstrasse 141 CH - 4053 Basel, Switzerland, and
- 2) PERMANENT MAGNETS LIMITED, having its principal office at: B-3, Mira MIDC Industrial Area, Mira Gaon, Mira road (East), Thane - 401104, Maharashtra, India

(hereinafter together with their successors and assigns referred to as "the Assignee") are our assignee, having all right, title and interest in, to and under said invention and said application(s);

NOW, THEREFORE, we have, assigned, transferred and set over, and by these presents hereby assign, transfer and set over to the Assignee all right, title and interest in, to and under said invention and said application, including the right to apply for any Letters Patent of the United States of America and in any and all foreign countries on said invention, and any and all other applications for Letters Patent on said invention, in whatsoever countries, including all divisional, renewal, substitute, continuation, continuation-in-part and convention applications based in whole or in part upon said invention or upon said application, and any and all Letters Patent which may issue thereon in the United States and foreign countries, and any and all reissues, extensions, renewals, divisions, continuations or continuations-in-part of Letters Patent granted for said invention or upon said applications, to the full term or terms for which said Letters Patent may be issued, and every priority right that is or may be predicated upon or arise from said invention, said application and said Letters Patent, the same to be held and enjoyed by the Assignee for its own use and benefit fully and entirely as if the same would have been held and enjoyed by us had this Assignment not been made. We hereby authorize the Assignee to file patent applications in any and all countries on any or all of said invention in our names, or in its name, or otherwise as the Assignee may deem advisable, under the International Convention or otherwise.
