Peterann, and David Chealey hereby agree to assign, and do hereby assign to Herbert LaZar Bell (a/k/a HLB), 345 North Canal Street, Chicago, Illinois 60606 and to its successors, legal representatives and assigns (the "Assignee"), the entire right, title and interests throughout the world in and to the invention and improvements in "Ice Machine" invented by us, together with the patent rights and rights of protection to the invention or improvements throughout the world, including any patent rights which may result or claim priority from United States Patent Application Serial No. 13/573,129, filed 23 August 2012, and in and to any and all divisional, continuation, reissue, reexamination, renewal, extension, substitution and confirmation applications and patents granted thereon, to be held and enjoyed by the Assignee for its own use and behalf as fully and entirely as if the invention or improvements would have been held and enjoyed if this Assignment had not been made.

We warrant that we are the sole and the exclusive owners of the interests assigned herein and have the right to make this Assignment. We further authorize Assignee to claim under international law or convention or the laws of any particular country such priority rights without further written or oral authorization. We consent that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document that may be required under international law or convention or the laws of any particular country for any purpose, including the right of Assignee to claim such priority rights.
