ASSIGNMENT

WHEREAS, I, Andrew Somers, have invented certain new and useful improvements in the following:

SYSTEM AND PROCESS FOR COGNITIVE ASSESSMENT AND TRAINING

for which I have made application for United States Letters Patent, the said application having been filed September 29, 2017, as Application No. 15/563,423, which claims priority to PCT/AU2015/050146, filed March 31, 2015 (collectively "Said Applications").

WHEREAS, Grey Innovation Pty Ltd, of 255 Mary Street, Richmond, Victoria 3121, Australia, an organisation organized and existing under the laws of the Country of Australia (hereinafter referred to as "ASSIGNEE"), by virtue of a prior agreement effective as of March 31, 2015, has acquired my entire right, title and interest in and to the invention, and in and to the Said Applications and any Letters Patent that may issue thereon, and this written instrument confirms ownership by ASSIGNEE;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I do hereby confirm the sale, assignment and transfer unto ASSIGNEE, its successors, assigns and legal representatives my entire right, title and interest in and to said invention and in and to Said Applications and all patents which may be granted therefore, and all provisionals, divisions, reissues, substitutions, continuations, continuation-in-part and extensions thereof; and I hereby authorize and request the Commissioner of Patents and Trademarks to issue all patents for said invention, or patents resulting therefrom, insofar as my interest is concerned, to the said ASSIGNEE of my entire right, title, and interest.

I also hereby confirm the sale and assignment to said ASSIGNEE, its successors, assigns and legal representatives the full and exclusive rights, title and interest to the invention disclosed in Said Applications throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs for said invention in its own name throughout the world, including all rights of priority, all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and

I further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such rights, title and interest in ASSIGNEE, its successors, assigns and legal representatives.

I hereby further agree that I will communicate to said ASSIGNEE, or its successors, assigns and legal representatives, any facts known to me respecting any improvements; and, at the expense of said ASSIGNEE, to testify in any legal proceedings, sign all lawful papers, execute all provisional, divisional, continuation, continuation-in-part, reissue and substitute applications, make all lawful oaths, and generally do everything possible to vest title in said ASSIGNEE and to aid said ASSIGNEE, its successors, assigns and legal representatives to obtain and enforce proper protection for said invention in all countries.
