ASSIGNMENT OF U.S. APPLICATION NO. 16/746,223

Whereas I, Mohammad Suliman Shathele Abdullah, (hereinafter referred to as "the Assignors"), am the sole inventor and the sole owner of the entire right, title, and interest in the inventions and discoveries entitled INNOVATIVE TECHNIQUE FOR DESALINATION OF SEAWATER USING SOLAR ENERGY a United States Utility Patent Application as set forth and identified by U.S. Application Serial Number for Letters Patent 16/746,223, filed on January 17, 2020, and

Whereas ALI FADLELMULA MOHAMED ALI, having a principle place of business at King Faisal University, Hofuf, Al Ahsa, Kingdom of Saudi Arabia, together with her successors and assigns (hereinafter referred to as "the Assignee") is desirous of acquiring the right, title and interest in and to said inventions and discoveries as set forth and described in U.S. Utility Patent Application for Letters Patent U.S. Serial No. 16/746,223, filed on January 17, 2020 including the full interest of above-mentioned Assignors, and any utilities, continuations, divisions, extensions, substitutions, reissues and reexaminations thereof;

Now, therefore, to all whom it may concern, be it known, that the Assignor, for and in consideration of the sum of one U.S. Dollars (\$1.00) receipt and sufficiency of which is hereby acknowledged and other valuable consideration furnished by Assignees to Assignor, Assignor hereby, without reservation:

1. Assigns, transfers, and conveys to the Assignees, the percentage rights, titles, and interests stated above in and to said inventions and discoveries and any and all improvements thereon, including said Application for Letters Patent of the United States of America;
2. Authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer said percentage of Application for Letters Patent to the Assignees, as assignee of the percentage of the entire right, title, and interest therein or otherwise as the Assignees may direct;
3. Warrant that that the Assignor has not knowingly conveyed to others any right in said inventions, discoveries, applications or patents or any license to use the same or to make, use, or sell anything embodying or utilizing any of said inventions or discoveries; and that the Assignor has good right to assign to the Assignees without encumbrances;
4. Bind the Assignor's heirs, legal representatives and assigns, as well as the Assignor, to do, upon the Assignee's request and at the Assignee's expense, but without additional consideration to the Assignors or the Assignors heirs, legal representatives and assigns, all acts reasonably serving to assure that the said inventions and discoveries, the said Application for Letters Patent shall be held and enjoyed by the Assignee as fully and entirely as the same could have been held and enjoyed by the Assignors or the Assignor's heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver to the Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may

be requested by the Assignee; to communicate to the Assignee all facts known to the Assignors relating to said inventions and discoveries or the history thereof, and to furnish the Assignee with any and all documents, photographs, models, samples, and other physical exhibits in the Assignors control or in the control of the Assignors heirs, legal representatives or assigns which may be useful for establishing the facts of the Assignors conceptions, disclosures, and reduction to practice of said inventions and discoveries.
