WHEREAS, Stephen M. Condon of Glenmoore, PA; Yijun Deng of Dresher, PA; Matthew G. LaPorte of Honeybrook, PA, and Susan R. Rippin of Wilmington, DE (hereinafter collectively, the "Assignor"), are the inventors of a certain new and useful invention as set forth and disclosed in a nonprovisional application for United States Letters Patent, entitled SMAC Mimetic, which application was filed on June 20, 2010 as U.S. Non-Provisional Application Serial No. 12/819,221 (hereinafter the "Invention").

WHEREAS, TetraLogic Pharmaceuticals Corp., having an address of 343 Phoenixville Pike, Malvern, PA 19355 ("Assignee"), is desirous of acquiring Assignor's right, title and interest in and to said Invention and in and to any and all Letters Patent of the United States and all foreign countries that may be obtained therefor for said Invention;

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and set over unto Assignee, its legal representatives, successors, and assigns, the entire right, title and interest in and to said Invention as set forth in the above-mentioned application, including any applications which claim priority to the above referenced application, any applications to which the above referenced applications claim priority, and any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued for said Invention;

UPON SAID CONSIDERATION, Assignor warrants and covenants that Assignor has the full right to convey the entire interest herein assigned; Assignor shall not execute any writing or do any act whatsoever conflicting with the terms and conditions of this Assignment, and that Assignor will, at any time upon request, without further or additional consideration, but at the expense of said Assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making application for or obtaining original, divisional, continuations, continuations-in-part, reexamined, reissued, or extended Letters Patent of the United States or of any and all foreign countries on said Invention, and in enforcing any rights or choses in action accruing as a result of such applications or patents, by giving testimony in any and all proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind and inure to the benefit of the assigns and legal representatives of Assignor and Assignee;

AND Assignor authorizes and requests that the Director of the United States Patents and Trademark Office or any other proper officer or agency of any country to issue all said Letters Patent for said Invention to said Assignee its legal representatives, successors or assigns, as the sole owner of the entire right, title and interest in and to said patent and the invention covered thereby.
