Assignment of Application

Whereas, I

Keith ERDMAN residing at 91 Clover Drive, Myerstown, PA 17067, hereafter referred to as inventor, has invented certain useful improvements in

**Modular System for Glazing and Other Infill Panels**

and identified in a U.S. patent application by the docket number 15.040, title "Modular System for Glazing and Other Infill Panels," at the time of filing, and U.S. Patent Application No. 15/929,208 \* with a filing date of 01/24/2020 \*;

Whereas, Solar Innovations, inc., hereafter referred to as Assignee, whose mailing address is 31 Roberts Road, Pine Grove, PA, 17963 and is desirous of acquiring the entire right, title, interest in the same;

Now, therefore, in consideration of the sum of ONE dollar (\$1.00), the receipt whereof is acknowledged, and other good and valuable consideration, I, the Inventor by these presents do sell, assign and transfer unto the Assignee the full and exclusive rights, title, and interest to the said invention throughout the world including entire rights, title and interest to any and all patents, including continuations, divisionals, reissues, PCT applications, which may be applied for and/or granted in the United States, foreign country, or any patent authority worldwide as a result this patent application. I hereby authorize and request the Director of the U.S. Patent and Trademark Office to issue a United States Patent to the Assignee, of the entire right, title, and interest in and to the same, for his sole use, profit and advantage; and for the use, profit, and advantage of his legal representatives, to the full end of the term for which the Patent may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

In Witness Whereof, we have hereunto set our hand and seal.
