ASSIGNMENT

This Assignment, effective as of April 27, 2006, made by David J. Scott of Redwood City, California; Ben F. Brian of Menlo Park, California; Lloyd F. Wright of Hopewell Junction, New York; Leo A. Chin of Poughquag, New York; Edward W. Hollmen of Poughkeepsie; Daniel W. Seegars of Salt Point, New York; and Mark A. Logan of Pleasant Valley, New York, Assignors, to Radiant Medical, Inc., a corporation under the laws of California, Assignee, having its place of business at 250 Chesapeake Drive, Redwood City, California 94063.

WHEREAS, Assignors have invented a new and useful APPARATUS AND METHOD FOR PROVIDING HEAT TRANSFER FROM A BODY, for which provisional applications were filed on April 27, 2005 and has Serial No. 60/594,662 and June 29, 2006 and has Serial No. 60/695,800 and for which an International Application under the Patent Cooperation Treaty was filed on April 27, 2006, as Application No. PCT/US2006/016037, and for which an application for United States Letters Patent was filed on April 27, 2006 and has Serial No. 11/413,564; and

WHEREAS, Assignors believe themselves to be the original, first and joint inventors of the invention disclosed and claimed in said provisional applications, International Application under the Patent Cooperation Treaty, and Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said invention, said provisional applications, International Application under the Patent Cooperation Treaty, and any Letters Patent that may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, their

entire right, title and interest in and to said invention, said provisional applications, International Application under the Patent Cooperation Treaty, and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file domestic non-provisional and foreign applications directly in the name of the Assignee and to claim for any such domestic and foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed non-provisional, division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date written herein below.

ASSIGNMENT

This Assignment, effective as of April 27, 2006, made by David J. Scott of Redwood City, California; Ben F. Brian of Menlo Park, California; Lloyd F. Wright of Hopewell Junction, New York; Leo A. Chin of Poughquag, New York; Edward W. Hollmen of Poughkeepsie; Daniel W. Seegars of Salt Point, New York; and Mark A. Logan of Pleasant Valley, New York, Assignors, to Radiant Medical, Inc., a corporation under the laws of California, Assignee, having its place of business at 250 Chesapeake Drive, Redwood City, California 94063.

WHEREAS, Assignors have invented a new and useful APPARATUS AND METHOD FOR PROVIDING HEAT TRANSFER FROM A BODY, for which provisional applications were filed on April 27, 2005 and has Serial No. 60/594,662 and June 29, 2006 and has Serial No. 60/695,800 and for which an International Application under the Patent Cooperation Treaty was filed on April 27, 2006, as Application No. PCT/US2006/016037, and for which an application for United States Letters Patent was filed on April 27, 2006 and has Serial No. 11/413,564; and

WHEREAS, Assignors believe themselves to be the original, first and joint inventors of the invention disclosed and claimed in said provisional applications, International Application under the Patent Cooperation Treaty, and Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said invention, said provisional applications, International Application under the Patent Cooperation Treaty, and any Letters Patent that may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, their

entire right, title and interest in and to said invention, said provisional applications, International Application under the Patent Cooperation Treaty, and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file domestic non-provisional and foreign applications directly in the name of the Assignee and to claim for any such domestic and foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed non-provisional, division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.
