BY AND BETWEEN

Stephen COTTON ("the First Inventor") of c/o Brightwake Limited, Sidings Road, Lowmoor Ind Est, Kirkby in Ashfield, Nottinghamshire NG17 7JZ, United Kingdom of the first part; and

Brightwake Limited ("the Assignee") a company registered in England under the number 01356034 whose registered office is at Sidings Road, Lowmoor Ind Est, Kirkby in Ashfield, Nottinghamshire NG17 7JZ, United Kingdom of the third part

WHEREAS

- A. The First Inventor and Second Inventor (collectively "the Inventors") are jointly the actual devisers of the invention ("the Invention") described in UK Patent Application No. 1703806.6 (the "Patent Application") which was filed on 9 March 2017.
- B. The Invention was made by the Inventors in the course of their employment with the Assignee.
- C. The parties to this assignment desire to confirm that all right and title and interest in and to the Patent Application and to the Invention are to be vested in the Assignee.

NOW THEREFORE IT IS AGREED as follows:

- 1. The Inventors hereby ACKNOWLEDGE that the Invention arose in the course of their normal duties and the circumstances were such that an invention might reasonably have been expected to result from the carrying out of their duties, and, at the time of making the invention, because of the nature of their duties and the particular responsibilities

arising from the nature of their duties they had a special obligation to further the nature of the Assignee's undertaking, and that therefore as between the Inventors and the Assignee all the rights to the Invention belong to the Assignee by virtue of Section 39(1) of the Patents Act 1977.

2. In the event that notwithstanding the foregoing any rights in and to the Patent Application or the Invention remain vested in the Inventors or any of them, the Inventors AGREE that they will, at the request and expense of the Assignee and in consideration of the sum of one pound sterling (£1) ASSIGN to the Assignee with full title guarantee all of their right title and interest in and to the Patent Application and the Invention for all countries of the world, including without limitation the United Kingdom and all countries of the Patent Cooperation Treaty, including the right to file applications for and obtain corresponding protection in any and all countries of the world and to claim priority from the Application, together with any and all divisional, continuation, continuation-in-part, reissue applications and the like, and the Inventors hereby CONSENT to the filing of any and all applications in respect of said Invention in the name of the Assignee.
3. The Inventors hereby covenant and agree to do all such things and to execute without further consideration such documents as may be reasonably required to file and prosecute applications for protection of the Invention in such countries as shall be determined by the Assignee, and at the expense of the Assignee to give all reasonable assistance in obtaining and enforcing any such protection.
