AMENDMENT NO. 5 TO PATENT SECURITY AGREEMENT

This AMENDMENT NO. 5 TO PATENT SECURITY AGREEMENT (this “Amendment”) is dated as of December 6, 2019, by and between LITL LLC, a Delaware limited liability company (“Grantor”), and WELLS FARGO CAPITAL FINANCE, LLC, a Delaware limited liability company, in its capacity as agent for Secured Parties (as hereinafter defined) (in such capacity, “Agent”).

W I T N E S S E T H:

WHEREAS, Grantor and Agent, acting on behalf of lenders and certain other parties (Agent and such lenders and other parties, collectively “Secured Parties”) are parties to the Patent Security Agreement, dated February 16, 2010, and recorded with the Assignment Recordation Branch for Patents of the United States Patent and Trademark Office (“USPTO”) on February 22, 2010, at Reel/Frame 023966/0954, as amended by (a) Amendment No. 1 to Patent Security Agreement, dated as of June 17, 2015, and recorded with the Assignment Recordation Branch for Patents of the USPTO on June 23, 2015, at Reel/Frame 036015/0940, (b) Amendment No. 2 to Patent Security Agreement, dated as of January 7, 2016, and recorded with the Assignment Recordation Branch for Patents of the USPTO on January 8, 2016, at Reel/Frame 037461/0396, (c) Amendment No. 3 to Patent Security Agreement, dated as of May 16, 2016, and recorded with the Assignment Recordation Branch for Patents of the USPTO on June 14, 2016, at Reel/Frame 038992/0349, and (d) Amendment No. 4 to Patent Security Agreement, dated as of September 6, 2017, and recorded with the Assignment Recordation Branch for Patents of the USPTO on September 6, 2017, at Reel/Frame 043495/0521 (as amended hereby and as the same may hereafter be further amended, modified, supplemented, extended, renewed, restated or replaced, the “Patent Security Agreement”);

WHEREAS, pursuant to the Patent Security Agreement, Grantor has, among other things, granted to Agent a security interest in all present and future Patents and Patent applications of Debtor, together with certain related assets, and has agreed to execute and deliver to Agent all agreements and documents as requested by Grantor to evidence the security interests of Agent therein;

WHEREAS, Grantor has adopted, used and is using, and is the owner of the entire right, title, and interest in and to a new patent and patent applications filed with the USPTO described in Schedule I hereto and made a part hereof (collectively, the “Additional Patents”); and

WHEREAS, Grantor is obligated to grant a security interest in and pledge all such Additional Patents and Additional Patent Collateral (as hereinafter defined) to Agent, as provided by the terms and conditions of the Patent Security Agreement;

NOW, THEREFORE, in consideration of the premises and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor and Agent hereby agree as follows:

1. Definitions. All initially capitalized terms used but not otherwise defined herein have the meanings given to them in the Patent Security Agreement or, if not defined therein, in the Security Agreement, and this Amendment shall be subject to the rules of construction set forth in the Security Agreement, which rules of construction are incorporated herein by this reference, mutatis mutandis.

2. Grant of Security Interest. In addition, and not in limitation, of the security interests and other interests granted to Agent (for itself and the benefit of Secured Parties) pursuant to the Patent

Security Agreement, as collateral security for the prompt performance, observance and indefeasible payment in full of all of the Secured Obligations, Grantor hereby grants to Agent (for itself and the benefit of Secured Parties) a continuing security interest in and a general lien upon, and a conditional assignment, and hereby confirms, reaffirms and restates the prior grant thereof to Agent (for itself and the benefit of Secured Parties) pursuant to the Patent Security Agreement, of the following, whether presently existing or hereafter arising or acquired (being collectively referred to herein as the “Additional Patent Collateral”):

(a) all of the Additional Patents referred to on Schedule 1 to this Amendment and any Additional Patent licensed under any Intellectual Property License referred to on Schedule 1 to this Amendment;

(b) all divisionals, continuations, continuations-in-part, reissues, reexaminations, or extensions of the foregoing; and

(c) all products and proceeds (as that term is defined in the UCC) of the foregoing, including any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any Additional Patent or any Additional Patent licensed under any Intellectual Property License, including right to receive any damages, (ii) injury to the goodwill associated with any Additional Patent or any Additional Patent licensed under any Intellectual Property License, or (iii) right to receive license fees, royalties, and other compensation in connection with any Additional Patent or any Additional Patent licensed under any Intellectual Property License.

3. Security for Secured Obligations. This Amendment and the security interest created hereby and in the Patent Security Agreement secures the payment and performance of the Secured Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Patent Security Agreement secures the payment of all amounts which constitute part of the Secured Obligations and would be owed by any Grantor to Agent or Secured Parties, whether or not they are unenforceable or not allowable due to the existence of a case under any Insolvency Proceeding involving any Grantor.

4. Confirmation of Grant of Security Interest. Without limiting the grant of the security interest to Agent set forth in Section 2 of the Patent Security Agreement or any other provisions thereof, Grantor hereby confirms, reaffirms and restates its prior grant of Patent Collateral to Agent, for itself and on behalf of the other Secured Parties, and hereby grants to Agent, for itself and on behalf of the other Secured Parties, a continuing security interest in and a general lien upon the Additional Patent Collateral.

5. Supplement and Amendment to Patent Security Agreement.

(a) Without limiting any of the Patent Collateral otherwise described in the Patent Security Agreement,

(i) Schedule I to the Patent Security Agreement is hereby amended and supplemented to include, in addition and not by way of limitation, the Additional Patents,

(ii) all references to the term “Patents” in the Patent Security Agreement or the Security Agreement are hereby amended to include, in addition and not in limitation, the Additional Patents, and

(iii) all reference to the term "Patent Collateral" in the Patent Security Agreement and the Security Agreement are hereby amended to include, in addition and not in limitation, the Additional Patent Collateral.

(b) The security interests granted pursuant to this Amendment and the Patent Security Agreement are granted in conjunction with the security interests granted to Agent, for itself and the benefit of the Secured Parties, pursuant to the Security Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the security interest in the Additional Patent Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between the Patent Security Agreement as amended by this Amendment and the Security Agreement, the Security Agreement shall control.

6. Representations, Warranties and Covenants. All of the representations, warranties and covenants with respect to the Patent Collateral set forth in the Patent Security Agreement shall apply to the Additional Patent Collateral and other assets described in Section 2 of this Amendment.

7. Effect of this Amendment. Except as expressly amended pursuant hereto, no other changes or modifications to the Patent Security Agreement or waivers of or consents under any provisions thereof are intended or implied, and in all other respects the Patent Security Agreement is hereby specifically ratified, restated, and confirmed by all parties hereto as of the effective date hereof. This Amendment and the Patent Security Agreement to be read and construed as one agreement.

8. Counterparts. This Amendment may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute but one and the same agreement. Delivery of an executed counterpart of this Amendment by telefacsimile or other electronic method of transmission shall be equally as effective as delivery of an original executed counterpart of this Amendment. Any party delivering an executed counterpart of this Amendment by telefacsimile or other electronic method of transmission also shall deliver an original executed counterpart of this Agreement but the failure to deliver an original executed counterpart shall not affect the validity, enforceability, and binding effect of this Amendment.
