ASSIGNMENT AND AGREEMENT

WHEREAS I, Kyle Atwood, residing at 4875 Lullwater Drive, Darlington, South Carolina, 29532 (the "Inventor"), have invented a certain invention or inventions related to "Expandable Intervertebral Spacers" and being described in U.S. nonprovisional patent application No. 16/747,994, filed on January 21, 2020, and any and all applications claiming the benefit thereof including the right of priority, (the "Invention" or "Inventions").

WHEREAS, I now own a right, title and interest therein; and

WHEREAS, DeGen Medical, Inc. ("Assignee"), a corporation fully organized and existing under the laws of the State of South Carolina and having a business address of 1321-C North Cashua Drive, Florence, SC 29501, desires to acquire my entire right, title and interest in said invention and said application for Letters Patent;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Inventor hereby sells, assigns and transfers unto the Assignee, its successors, legal representatives and assigns, my entire right, title and interest in and to said invention and said application for Letters Patent, including the right to claim priority to said application for Letters Patent, for the United States of America and for all foreign countries and to all Letters Patent, continuations, reissues, and extensions to be obtained therefore; and I further agree to cooperate with the Assignee hereunder in the obtaining and sustaining of any and all such Letters Patent.

The Inventor authorizes Assignee to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States, and to invoke and claim for any application for patent or other form of protection for the Invention or Inventions, without further authorization from me, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

The Inventor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document that may be required in any country in proof of the right of Assignee to apply for patent or other form of protection for the Invention or Inventions and to claim the aforesaid benefit of the right of priority.

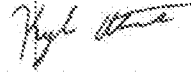

The Inventor requests that any and all patents for the Invention or Inventions be issued to Assignee in the United States and in all countries foreign to the United States, or to such nominees as Assignee may designate.

The Inventor agrees that, when requested, I shall, without charge to Assignee, but at their expense, sign all papers, take all rightful oaths, and do all acts that may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection for the Invention or Inventions.
