**ASSIGNMENT OF RIGHTS FROM
PETE MEISTER
TO BE AEROSPACE INC.**

Proprietary Rights Agreement

This Agreement is intended to set forth in writing my responsibility to B/E Aerospace, Inc. and/or any of its subsidiaries or affiliated businesses (collectively the "Company") during my employment with the Company and thereafter. I recognize that the Company is engaged in a continuous program of research, development and production respecting its business, present and future. As part of my employment with the Company, I have certain obligations relating to confidential information of the Company and inventions which I develop during my employment.

In return for my employment by the Company, I acknowledge and agree that:

REDACTED

3. Inventions.

- 3.1 Definition of Inventions. As used in this Agreement, the term "Invention" means any new or useful art, discovery, contribution, finding or improvement, whether or not patentable, and all related know-how. Inventions include, but are not limited to, all designs, discoveries, formulas, processes, manufacturing techniques, semiconductor designs, computer software, inventions, improvements and ideas.

3.2 Disclosure and Assignment of Inventions

- (a) I will promptly disclose and describe to the Company all Inventions which I may solely or jointly conceive, develop, or reduce to practice during the Agreement Period (i) which relate, at the time of conception, development or reduction to practice of the Invention, to the Company's business or actual or demonstrably anticipated research or development (ii) which were developed, in whole or in part, on the Company's time or with the use of any of the Company's equipment, supplies, facilities or trade secret information, or (iii) which resulted from any work I performed for the Company (the "Company Inventions"). I assign all my right, title and interest worldwide in the Company Inventions and in all intellectual property rights based upon the Company Inventions. However, I do not assign or agree to assign any Inventions relating in any way to the Company business or demonstrably anticipated research and development which were made by me prior to my employment with the Company, which Inventions, if any, are identified on Exhibit "A" to this Agreement. Exhibit "A" contains no confidential information. I have no rights in any Inventions other than the inventions specified in Exhibit "A." If no such list is attached, I have no such Inventions or I grant an irrevocable, nonexclusive, royalty-free, worldwide license to the Company to make, use and sell Inventions developed by me prior to my employment with the Company.
- (b) I recognize that Inventions relating to my activities while working for the Company and conceived or made by me, alone or with others, within one (1) year after termination of the Agreement Period may have been conceived in significant part while I was retained by the Company. Accordingly, I agree that such Inventions shall be presumed to have been conceived during my employment or consultancy with the Company and are to be assigned to the Company as a Company Invention unless and until I have established the contrary. I agree to disclose promptly in writing to the Company all Inventions made or conceived by me for one (1) year after the Agreement Period, whether or not I believe such Inventions are subject to this Agreement, to permit a determination by the Company as to whether or not the Inventions should be the property of the Company. Any such information will be received in confidence by the Company.

- 3.3. Nonassignable Inventions. This Agreement does not apply to an invention which qualifies fully as a nonassignable invention.

7. Acts to Secure Proprietary Rights.

- 7.1. Further Acts I agree to perform, during and after the Agreement Period, all acts deemed necessary or desirable by the Company to permit and assist it, at its expense, in perfecting and enforcing the full benefits, enjoyment, rights and title throughout the world in the Company Inventions. Such acts may include, but are not limited to, execution of documents and assistance or cooperation in the registration and enforcement of applicable patents and copyrights or other legal proceedings.
- 7.2. Appointment of Attorney-In-Fact In the event that the Company is unable for any reason whatsoever to secure my signature to any lawful and necessary document required to apply for or execute any patent, copyright or other applications with respect to any Company Inventions (including improvements, renewals, extensions, continuations, divisions or continuations in part thereof), I hereby irrevocably appoint the Company and its duly authorized officers and agents as my agents and attorneys-in-fact to execute and file any such application and to do all other lawfully permitted acts to further the prosecution and issuance of patents, copyrights or other rights thereon with the same legal force and effect as if executed by me.
