ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, **Sylvie Mader, of Bureau Recherche-Developpement-Valorisation, C.P. 6128, Succursale Centre-ville, H3C 3J7 Montreal, QC, Canada**, hereby assign to **Universite de Montreal, a university of Canada**, having a place of business at **2900 Edouard-Monpetit Boulevard, H3T 1J4 Montreal, QC, Canada**, and its successors and assigns (collectively hereinafter "the Assignee"), the entire right, title, and interest throughout the world in the invention(s) described or described and claimed in a patent application entitled entitled "**18-20 Member Bi-polycyclic Compounds**," which was filed with the United States Patent and Trademark Office on **June 4, 2015**, and assigned PCT Application Number ^{PCT/US2015/034303}_____ ("said application"), which claims the benefit of priority of U.S. Provisional Application Number **62/007,673**, which was filed on **June 4, 2014**, and to U.S. Provisional Application Number **62/007,686**, which was filed on **June 4, 2014**. This assignment is effective as of the filing date of the U.S. Provisional Applications referenced herein. The Assignee authorizes the insertion of the PCT Application Number once available.

This assignment further includes all of my rights in any inventions that are described or described and claimed in any utility application claiming the benefit of the priority date of said application ("said utility application"); any continuation, continuation-in-part, or divisional application of said utility application; any patent that issues from any of the foregoing applications, including any utility patents and models; any patent that issues from any of the foregoing applications and is subjected to a reexamination proceeding, a reissue proceeding, or the like; and any design registrations granted for any of the inventions described in any of the foregoing applications or patents. This assignment further includes all of my rights in any inventions described or described and claimed in a patent or patent application claiming or having the right to claim priority to the filing date of said application, said utility application, or any continuation, continuation-in-part, or divisional application thereof under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purpose.

This assignment also includes, without limitation, any claims, whether known or unknown, and whether suspected or unsuspected, of any nature that I have or may have against any party for infringement of any of the patents referenced herein and the right to sue for past infringement and to recover and retain damages and profits in respect thereof.

I authorize the Assignee to apply in all countries in my name or in its own name for patents, utility models, design registrations, and like rights of exclusion and for inventors' certificates for the invention(s) described in the application(s) referenced above.

I hereby covenant and agree that I will communicate to the Assignee or the Assignee's nominee(s) all facts known to me pertaining to the invention(s) described in the application(s) referenced above, and I agree for myself and my heirs, legal representatives, and assigns, to sign any lawful documents, including rightful oaths and declarations, to testify in any legal proceedings, and in general to perform or cause to be performed all lawful acts necessary or proper to aid the Assignee or the Assignee's nominee(s) in obtaining, maintaining, and enforcing all lawful patent protection for the inventions described in the applications referenced above in the United States of America and in any other countries or regions.

I hereby covenant that I have the full right to convey the entire right, title, and interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.
