Assignment

- In consideration of one dollar and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, LuxPoint Inc. ("Assignor"), having an office at 101 Hammer Mill Road, Suite K, Rocky Hill, Connecticut 06067, hereby assigns and transfers to Lumeda Inc. ("Assignee"), having an office at 101 Hammer Mill Road, Suite K, Rocky Hill, Connecticut 06067, all of its present and future rights, title or interest in:

"LOW CROSSTALK, COMMON PATH, DUAL RING SAGNAC INTERFEROMETER FOR DISTURBANCE SENSING", Patent Cooperation Treaty Patent Application No. PCT/US2018/044034, filed 27 July 2018 and having a counterpart United States Patent Application Serial Number 16/304395, filed 26 November 2018, (hereinafter "above-referenced patent application");

and to all divisional, continuation, continuation-in-part, substitute, renewal, reissue, or other application based off of the above-referenced application which have been or shall be filed in the United States or in a foreign jurisdiction (hereinafter "related patent applications");

and to all original, reissued, or reexamined patents which have been or shall be issued from the above-referenced patent application and/or related applications in the United States or in a foreign jurisdiction (hereinafter "issued patents");

and to any subject matter claimed in the above-referenced patent application, related patent applications, or issued patents (hereinafter "subject matter").

- Assignor warrants and promises that no assignment, grant, mortgage, license or other agreement affecting the rights assigned herein has been or will be made to others, and that the full right to assign the same is possessed by the Assignor and has not been retained by the inventors of the subject matter or by Assignor's agents, employees or contractors.

- Assignor further promises to carry out in good faith the intent and purpose of this assignment, and further promises when requested by and at the expense of the Assignor, to:

perform any lawful acts that are necessary in the opinion of the Assignee to give full force and effect to this assignment and to enable or assist the Assignee or Assignee's successors and assigns to obtain issued patents;

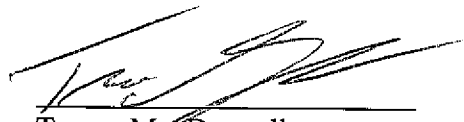

to execute or have executed by the inventors and/or the Assignor's agents, employees or contractors the above-referenced patent application and/or related applications;

- to execute or have executed by the inventors and/or the Assignor's agents, employees or contractors all rightful oaths, declarations, assignments, powers of attorney or other lawful papers necessary to perfect or record the rights hereby assigned to the Assignee and to reflect Assignee's or Assignee's successors' and assigns' ownership thereof;
- to procure for the benefit of the Assignee a full assignment of rights in the subject matter from any inventor of the subject matter, to the extent that such an inventor's rights have not already been assigned to the Assignor;
- to communicate to the Assignee all facts known to the Assignor relating to the development or commercialization of the subject matter assigned herein; and
- to execute or produce any papers necessary or desirable in the opinion of the Assignee to assist in defending, establishing or preserving the validity and patentability of the rights assigned herein.
