("Assignee") Assignor's entire right, title, and interest in and to the following:

- (a) United States of America Patent Application No. 16/141,857, a Non-Provisional Utility application filed 09/25/2018, titled "Linear Chamber Magazine" (collectively, the "Patent Application");
- (b) any and all inventions set forth in the Patent Application(s) (the "Inventions");
- (c) the right to file applications for patent of the United States or other countries on the Inventions, including all rights under the Hague Convention, the Paris Convention for the Protection of Industrial Property and the Patent Cooperation Treaty;
- (d) any and all applications for patent, including provisionals, non-provisionals, continuations, continuations-in-part, divisions, PCT applications, PCT national stage entry applications, and corresponding foreign patent applications that may be filed with respect to the Invention or improvements thereto;
- (e) any and all application(s) for patent of the United States or other countries claiming priority to the Patent Applications or any application(s) for patent claiming the Inventions, including any divisional(s), continuation(s) and continuation(s)-in-part;
- (f) any and all provisional or other right to recover damages, including royalties, for prior infringements of any application for patent identified in the preceding paragraphs (a), (c), (d) and (e); and

The above-granted rights, titles, and interests are to be held and enjoyed by the Assignee, for its own use and behalf and the use and behalf of its successors, legal representatives, and assigns, as fully and entirely as same would have been held and enjoyed by Assignor has this assignment not been made.
