ASSIGNMENT AGREEMENT

WHEREAS, We, Andrew BALLARD, Tomasz DOMANSKI, Jon HARMAN, Alan ROBERTSON, Jonathan TUNBRIDGE, Diana DUARTE, Adam BRUNTON (**Assignor(s)**) have made certain new and useful inventions, improvements and/or designs set forth in an application for Letters Patent, International Patent Application No. **PCT/GB2018/052295** entitled "**Metal Supported Solid Oxide Fuel Cell Unit and its Method of Manufacture**" (**Assigned Patent Application**), which has been filed or will be filed;

WHEREAS, Ceres Intellectual Property Company Limited, an entity organized and existing under and by virtue of the laws of Great Britain, having a place of business at Viking House, Foundry Lane, Horsham, West Sussex, RH13 5PX, Great Britain (**Assignee**), is desirous of acquiring the entire right, title and interest in and to said inventions, improvements, and/or designs and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefore;

NOW, THEREFORE, **Assignor(s)** and **Assignee** do hereby enter into the following Assignment Agreement.

1. Definitions

The **Assigned Patent Rights** means certain new and useful inventions, improvements, and designs made by the **Assignor(s)** for which the **Assigned Patent Application** has been or will be filed.

The **Assigned Patent Rights** also includes:

- the **Assigned Patent Application**;
- all Letters Patent granted based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any inventions, improvements, and designs disclosed by an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any provisional patent application to which priority is claimed (for example, under 35 U.S.C. § 119(e)) by an application for Letters Patent forming part of the **Assigned Patent Rights** that has not previously been assigned by the **Assignors**;
- all divisional applications, continuation applications, continuation-in-part applications, and design patent applications claiming priority to an application for Letters Patent forming part of the **Assigned Patent Rights**, as well as any conversions, revival and prolongations of an application for Letters Patent forming part of the **Assigned Patent Rights**;

[Ceres Ref: PN069GBPCT]

- the authority to prosecute/initiate any reissue, reexamination, renewal or extension of the Assigned Patent Application or of any Letters Patent granted based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any substitute application filed based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom;
- any legal equivalents of priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom; and
- any right to sue for infringement of any right arising from the filing of an application for Letters Patent forming part of the **Assigned Patent Rights**.

2. Assignment of the Assigned Patent Rights

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Assignor(s)** have and/or do hereby sell, assign, and transfer to **Assignee**, its successors and assigns, all right, title, and interest for the United States and its territorial possessions and in all foreign countries in and to the **Assigned Patent Rights**.

3. Cooperation Agreement

The **Assignor(s)** further agree without further or additional consideration, but at the expense of **Assignee**, to:

- promptly provide **Assignee**, upon request, with all pertinent facts and documents relating to the **Assigned Patent Rights**;
- cooperate with **Assignee** in the protection and prosecution of the **Assigned Patent Rights**;
- testify with respect to all pertinent facts and documents relating to the **Assigned Patent Rights** in any interference, post grant review, inter partes review, litigation, or proceeding relating thereto;

- review, execute, verify, acknowledge and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue, or enforce the **Assigned Patent Rights**; and
- perform such other acts as **Assignee** lawfully may request to obtain or maintain the **Assigned Patent Rights**, or to vest title thereto in said **Assignee**.

4. Assignors Representations

The **Assignor(s)** hereby represent and warrant that they have not entered, and will not enter, into any assignment, license agreement, sale agreement, or encumbrance that conflicts with the assignment of the **Assigned Patent Rights**.

5. Authorization to issue patents in name of Assignee

The **Assignor(s)** and **Assignee** hereby confirm that the assignment to the **Assignee** of the **Assigned Patent Rights** includes authorization by the **Assignor(s)** for the United States Commissioner of Patents and Trademarks, and officials of any other country whose duty it is to issue patents on applications, to issue any Letters Patent arising from the **Assigned Patent Rights** to the **Assignee**, its successors, or assigns.

Assignor(s) grants the attorney of record the power to insert on this **Assignment** any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

This **Assignment** may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same **Assignment**.

- any provisional patent application to which priority is claimed (for example, under 35 U.S.C. § 119(e)) by an application for Letters Patent forming part of the **Assigned Patent Rights** that has not previously been assigned by the **Assignors**;
- all divisional applications, continuation applications, continuation-in-part applications, and design patent applications claiming priority to an application for Letters Patent forming part of the **Assigned Patent Rights**, as well as any conversions, revival and prolongations of an application for Letters Patent forming part of the **Assigned Patent Rights**;

[Ceres Ref: PN069GBPCT]

- the authority to prosecute/initiate any reissue, reexamination, renewal or extension of the Assigned Patent Application or of any Letters Patent granted based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any substitute application filed based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom;
- any legal equivalents of priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom; and
- any right to sue for infringement of any right arising from the filing of an application for Letters Patent forming part of the **Assigned Patent Rights**.

2. Assignment of the Assigned Patent Rights

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Assignor(s)** have and/or do hereby sell, assign, and transfer to **Assignee**, its successors and assigns, all right, title, and interest for the United States and its territorial possessions and in all foreign countries in and to the **Assigned Patent Rights**.

3. Cooperation Agreement

The **Assignor(s)** further agree without further or additional consideration, but at the expense of **Assignee**, to:

- promptly provide **Assignee**, upon request, with all pertinent facts and documents relating to the **Assigned Patent Rights**;
- cooperate with **Assignee** in the protection and prosecution of the **Assigned Patent Rights**;
- testify with respect to all pertinent facts and documents relating to the **Assigned Patent Rights** in any interference, post grant review, inter partes review, litigation, or proceeding relating thereto;

- review, execute, verify, acknowledge and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue, or enforce the **Assigned Patent Rights**; and
- perform such other acts as **Assignee** lawfully may request to obtain or maintain the **Assigned Patent Rights**, or to vest title thereto in said **Assignee**.

4. Assignors Representations

The **Assignor(s)** hereby represent and warrant that they have not entered, and will not enter, into any assignment, license agreement, sale agreement, or encumbrance that conflicts with the assignment of the **Assigned Patent Rights**.

5. Authorization to issue patents in name of Assignee

The **Assignor(s)** and **Assignee** hereby confirm that the assignment to the **Assignee** of the **Assigned Patent Rights** includes authorization by the **Assignor(s)** for the United States Commissioner of Patents and Trademarks, and officials of any other country whose duty it is to issue patents on applications, to issue any Letters Patent arising from the **Assigned Patent Rights** to the **Assignee**, its successors, or assigns.

Assignor(s) grants the attorney of record the power to insert on this **Assignment** any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

This **Assignment** may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same **Assignment**.

ASSIGNMENT AGREEMENT

WHEREAS, We, Andrew BALLARD, Tomasz DOMANSKI, Jon HARMAN, Alan ROBERTSON, Jonathan TUNBRIDGE, Diana DUARTE, Adam BRUNTON (**Assignor(s)**) have made certain new and useful inventions, improvements and/or designs set forth in an application for Letters Patent, International Patent Application No. **PCT/GB2018/052295** entitled "**Metal Supported Solid Oxide Fuel Cell Unit and its Method of Manufacture**" (**Assigned Patent Application**), which has been filed or will be filed;

WHEREAS, Ceres Intellectual Property Company Limited, an entity organized and existing under and by virtue of the laws of Great Britain, having a place of business at Viking House, Foundry Lane, Horsham, West Sussex, RH13 5PX, Great Britain (**Assignee**), is desirous of acquiring the entire right, title and interest in and to said inventions, improvements, and/or designs and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefore;

NOW, THEREFORE, **Assignor(s)** and **Assignee** do hereby enter into the following Assignment Agreement.

1. Definitions

The **Assigned Patent Rights** means certain new and useful inventions, improvements, and designs made by the **Assignor(s)** for which the **Assigned Patent Application** has been or will be filed.

The **Assigned Patent Rights** also includes:

- the **Assigned Patent Application**;
- all Letters Patent granted based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any inventions, improvements, and designs disclosed by an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any provisional patent application to which priority is claimed (for example, under 35 U.S.C. § 119(e)) by an application for Letters Patent forming part of the **Assigned Patent Rights** that has not previously been assigned by the **Assignors**;
- all divisional applications, continuation applications, continuation-in-part applications, and design patent applications claiming priority to an application for Letters Patent forming part of the **Assigned Patent Rights**, as well as any conversions, revival and prolongations of an application for Letters Patent forming part of the **Assigned Patent Rights**;

[Ceres Ref: PN069GBPCT]

- the authority to prosecute/initiate any reissue, reexamination, renewal or extension of the Assigned Patent Application or of any Letters Patent granted based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any substitute application filed based upon an application for Letters Patent forming part of the **Assigned Patent Rights**;
- any priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom;
- any legal equivalents of priority rights associated with an application for Letters Patent forming part of the **Assigned Patent Rights**, including priority under International Agreements, Treaties and Conventions for the protection of intellectual property in its various forms and all applications in which a right of priority is claimed and any Letters Patent, Design Patent, Utility Model, or equivalent granted therefrom; and
- any right to sue for infringement of any right arising from the filing of an application for Letters Patent forming part of the **Assigned Patent Rights**.

2. Assignment of the Assigned Patent Rights

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Assignor(s)** have and/or do hereby sell, assign, and transfer to **Assignee**, its successors and assigns, all right, title, and interest for the United States and its territorial possessions and in all foreign countries in and to the **Assigned Patent Rights**.

3. Cooperation Agreement

The **Assignor(s)** further agree without further or additional consideration, but at the expense of **Assignee**, to:

- promptly provide **Assignee**, upon request, with all pertinent facts and documents relating to the **Assigned Patent Rights**;
- cooperate with **Assignee** in the protection and prosecution of the **Assigned Patent Rights**;
- testify with respect to all pertinent facts and documents relating to the **Assigned Patent Rights** in any interference, post grant review, inter partes review, litigation, or proceeding relating thereto;

- review, execute, verify, acknowledge and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue, or enforce the **Assigned Patent Rights**; and
- perform such other acts as **Assignee** lawfully may request to obtain or maintain the **Assigned Patent Rights**, or to vest title thereto in said **Assignee**.

4. Assignors Representations

The **Assignor(s)** hereby represent and warrant that they have not entered, and will not enter, into any assignment, license agreement, sale agreement, or encumbrance that conflicts with the assignment of the **Assigned Patent Rights**.

5. Authorization to issue patents in name of Assignee

The **Assignor(s)** and **Assignee** hereby confirm that the assignment to the **Assignee** of the **Assigned Patent Rights** includes authorization by the **Assignor(s)** for the United States Commissioner of Patents and Trademarks, and officials of any other country whose duty it is to issue patents on applications, to issue any Letters Patent arising from the **Assigned Patent Rights** to the **Assignee**, its successors, or assigns.

Assignor(s) grants the attorney of record the power to insert on this **Assignment** any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

This **Assignment** may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same **Assignment**.
