CONFIRMATORY ASSIGNMENT

Full Name of Assignor	State of Incorporation	Business Address
Sunovion CNS Development Canada ULC	British Columbia	1600-925 West Georgia Street Vancouver, BC V6C 3L2 Canada

acknowledges the assignment, as of October 21, 2016, to:

Full Name of Assignee	Jurisdiction of Incorporation	Business Address
Sunovion Pharmaceuticals Inc.	Delaware	84 Waterford Drive Marlborough, MA 01752 United States of America

and to its successors and assigns (collectively hereinafter called the "ASSIGNEE"), for good and valuable consideration paid to ASSIGNOR by ASSIGNEE, the receipt and sufficiency of which is hereby acknowledged, the entire right, title, and interest in, to, and deriving from all inventions the title or control of title was held by ASSIGNOR or to which ASSIGNOR had a lawful claim to hold or control title including without limitation the invention(s) disclosed in the patent application(s) set forth below throughout the world by operation of law, contract, or otherwise, and any Letters Patent which may hereafter be granted on the same including any patent application claiming priority, divisions, renewals, continuations in whole or in part, substitutions, conversions, reissues, reexaminations, prolongations or extensions thereof.

Furthermore, we authorize and request the attorneys appointed in said patent applications to hereafter complete this assignment by inserting below the filing date and serial number of said applications when known; this assignment includes said patent applications, any and all United States and foreign patents, utility models, and design registrations granted for any of said patent inventions or improvements, and the right to claim priority based on the filing date of said applications under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes; and we authorize the Assignee to apply in all countries in our names or in its own name for patents, utility models, design registrations, and like rights of exclusion, and for inventors' certificates for said inventions and improvements; and we agree for ourselves and our respective heirs, legal representatives and assigns, without further compensation, to perform such lawful acts and to sign such further patent applications, assignments, Preliminary Statements, and other lawful documents as the Assignee may reasonably request to effectuate fully this assignment.
