United States

Assignee:

DDSTUDIO  
439 S. Cedros Ave. Ste 403  
Solana Beach, CA 92075  
United States

WHEREAS, Assignor(s) (listed above) are inventor(s) of certain new, original, and ornamental designs and improvements claimed and described in an application for Letters Patent of the United States entitled "CHEMICAL ANALYSIS INSTRUMENT" and referenced above;

AND WHEREAS, Assignee, a business organization having an office and place of business indicated above, is desirous of acquiring the entire right, title and interest in and to said

designs and improvements and in and to the applications, and in and to any letters patent to be obtained therefrom;

NOW THEREFORE, to all whom it may concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor(s) have sold, assigned, and transferred, and by these presents do sell, assign, and transfer unto said Assignee, its successors or assigns, the entire right, title, and interest in and to said designs and improvements, said applications, and any and all letters patent which may be granted for said design and improvements in the United States of America and its territorial possessions and in any and all foreign countries, and in any and all divisions, reissues, continuations-in-part, and continuations thereof, including all rights to claim priority directly or indirectly to the aforesaid and the right to file foreign applications directly in the name of Assignee and to claim priority rights deriving from said United States applications to which said foreign applications are entitled by virtue of international convention, treaty or otherwise, said designs and improvements, applications and all letters patent on said design and improvements to be held and enjoyed by Assignee and its successors and assigns for their use and benefit and of their successors and assigns as fully and entirely as the same would have been held and enjoyed by Assignor(s) had this assignment, transfer and sale not been made. Assignor(s) also assign any right, title or interest in and to the inventions that has not already been transferred to the Assignee. Assignor(s) hereby authorize and request the Commissioner of Patents to issue all letters patent on said design to Assignee;

AND, for the consideration aforesaid, Assignor(s) do hereby agree that each Assignor and his/her executors and legal representatives will make, execute, and deliver any and all other instruments and documents in writing including any and all further applications papers, affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to me relating to said designs and improvements and the history thereof and will testify in all legal proceedings and generally do all things which may be necessary or desirable to more effectually secure and vest in said Assignee, its successors or assignees the entire right, title and interest in and to the improvements, designs, applications, letters patent, rights, titles, benefits, privileges and advantages hereby sold, assigned and conveyed, or intended so to be;

AND, Assignor hereby authorizes Assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the application number and filing date of the above-referenced application for Letters Patent once known;

AND, furthermore, Assignor(s) covenant, warrant, and agree with said Assignee, its successors and assigns, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the Assignor(s) and that full right to convey the same as herein expressed is possessed by the Assignor(s).
