OWNERSHIP OF INVENTIONS

I agree to assign (both during and after my employment with UnitedHealth Group) and hereby assign to UnitedHealth Group all rights, titles and interests I may have in any invention, computer program, discovery, idea, writing, improvement, process, technique or other works (collectively called "Inventions") whether or not patentable or registrable under copyright or similar statutes, created or conceived by me, either alone or jointly with others, during my employment with UnitedHealth Group that:

- relates in any manner to the actual or anticipated business, research, or development of UnitedHealth Group;
- results from work assigned to or performed by me for UnitedHealth Group; and/or
- is conceived of or made with the use of UnitedHealth Group's systems, equipment, supplies, materials, facilities, computer programs, confidential information and/or trade secret information.

I will, both during and after my employment, promptly disclose in writing to UnitedHealth Group any interest I may have in any Invention created or conceived by me, either alone or jointly with others, during my employment with UnitedHealth Group. I will also promptly disclose in writing to UnitedHealth Group any interest I may have in any Invention created or conceived by me, either alone or jointly with others, prior to employment with UnitedHealth Group that relates to the actual or anticipated business, research, or development of UnitedHealth Group.

I will at all times, even after termination of my employment, do whatever UnitedHealth Group reasonably requests of me to assign any Inventions to UnitedHealth Group that were created or conceived by me, either alone or jointly with others, during my employment with UnitedHealth Group and to assist UnitedHealth Group in securing rights in the Inventions, including but not limited to filing patent applications.

This agreement does not apply to Inventions that meet all of the following criteria:

- No UnitedHealth Group equipment, supplies, facilities, proprietary or trade secret information was used in its creation;
- It was developed entirely on my own time;
- At the time of conception or reduction to practice, it does not relate directly to UnitedHealth Group's business;

- At the time of conception or reduction to practice, it does not relate to UnitedHealth Group's actual or demonstrably anticipated research or development; and
- It does not result from any work performed by me for UnitedHealth Group.
