Assignment of Ownership for U.S. Patent Application

*Grace Barr* ("Assignor") is owner of GENERATING AND PRESENTING A 3D VIRTUAL SHOPPING ENVIRONMENT, as described in the U.S. Patent Application signed by Assignor, U.S. Patent and Trademark Office filed herewith (the "Patent Application"). *Obsess Inc.*, ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of their right, title, and interest in the invention and Patent Application (as well as such rights in any related divisional, continuation, continuations-in-part, foreign application, Patent Cooperation Treat (PCT) application, and/or substitute application) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisionals, continuations, continuations-in-parts or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
