For value received, we, Holger SCHULZ of Massmannstrasse 3,

and their successors, assigns and legal representatives, the entire right, title and interest,
for the United States of America, in and to certain inventions related to

described in application no.: 16/713,369 (U.S Application); all the rights and privileges in
said application and under any and all Letters Patent that may be granted in the United
States for said inventions, including continuation, divisional and continuation-in-part
applications.

We authorize NEXANS to make application for such protection in its own name
and maintain such protection in the United States, and to invoke and claim for any
application for patent or other form of protection for said inventions, without further
authorization from me, any and all benefits, including the right of priority provided by
any and all treaties, conventions, or agreements.

We hereby consent that a copy of this assignment shall be deemed a full legal and

right of NEXANS to apply for patent or other form of protection for said inventions and
to claim the aforesaid benefit of the right of priority.

We request that any and all patents for said inventions be issued to NEXANS in
the United States, or to such nominees as NEXANS may designate.

We agree that, when requested, we shall, without charge to NEXANS, but at its
