ASSIGNMENT OF WORLDWIDE RIGHTS

WHEREAS, O&M Worldwide, LLC, having its principal office and place of business at 9120 Lockwood Boulevard, Mechanicsville, Virginia, 23116, United States, (hereinafter referred to as "Assignor"), is the owner in all countries throughout the world of 0.01% of the entire right, title and interest in and to the granted patents and pending patent applications, including international patent applications processed according to the Patent Cooperation Treaty (PCT) and non-US foreign patent applications and granted patents, which are attached hereto as **Schedule A**, as well as any patents to be issued therefrom; and

WHEREAS, Owens & Minor Distribution, Inc., having its principal office and place of business at 9120 Lockwood Boulevard, Mechanicsville, Virginia, 23116, United States (hereinafter "Assignee") is desirous of acquiring the full right, title, and interest (e.g., Assignor's 0.01% interest) in and to the granted patents and pending patent applications, including international patent applications processed according to the Patent Cooperation Treaty (PCT) and non-US foreign patent applications and granted patents, which are attached hereto as **Schedule A**, as well as any patents to be issued therefrom;

NOW, THEREFORE, be it known that for good and valuable consideration the receipt of which from Assignee is hereby acknowledged, O&M Worldwide, LLC, as Assignor, has assigned, transferred, and set over, and does hereby assign, transfer, and set over unto the Assignee, its lawful successors and assigns, its entire right, title, and interest in and to the granted patents and pending patent applications, including international patent applications processed according to the Patent Cooperation Treaty (PCT) and non-US foreign patent applications and granted patents, which are attached hereto as **Schedule A**, as well as any patents to be issued therefrom, and all rights to claim priority on the basis of such applications, and all applications for Letters Patent which may hereafter be filed for this invention and all Letters Patent which may be

granted on this invention, and all continuations, continuations-in-part, divisionals, renewals, substitutes, re-examinations, conversions or reissues thereof, including all extensions thereof, and O&M Worldwide, LLC hereby authorizes and requests the commissioner or other authorized individual of any patent office to issue patents on the applications as described above, and to issue all Letters Patent for this invention to Assignee, its successors and assigns, in accordance with the terms of this Agreement;

AND, ASSIGNOR HEREBY covenants that Assignor has the full right to convey the interest assigned by this Assignment, and has not executed, and will not execute any agreement in conflict with this Assignment;

AND, ASSIGNOR HEREBY further covenants and agrees that Assignor will, without further consideration, communicate with Assignee, its successors and assigns, any facts known to Assignor respecting this invention, and testify in any legal proceeding, sign all lawful papers when called upon to do so, execute and deliver any and all papers that may be necessary or desirable to perfect the title of this invention in said Assignee, its successors and assigns, execute all divisional, continuation, and reissue applications, make all rightful oaths and generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper patent protection for the granted patents and pending patent applications, including international patent applications processed according to the Patent Cooperation Treaty (PCT) and non-US foreign patent applications and granted patents, which are attached hereto as **Schedule A**, as well as any patents to be issued therefrom, it being understood that any expense incident to the execution of such papers shall be borne by the Assignee, its successors and assigns.

IN WITNESS WHEREOF, the Assignor and the Assignee have executed this Assignment of Worldwide Rights effective as of **December 31, 2019**.
