## PATENT ASSIGNMENT

---

Applicant: **David Cook** of Fullerton, CA;

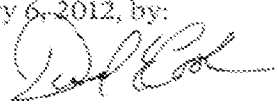

is the owner of the invention disclosed in a PCT patent application entitled "MULTICHAMBER HEAT EXCHANGER", prepared by Richards Patent Law P.C., and filed on January 6, 2012 ("Invention").

Assignee, **Clean Rolling Power, LLC** of Ann Arbor, MI, desires to acquire the entire right, title and interest in the Invention.

In consideration of the sum of one dollar, the receipt of which is hereby acknowledged, and for other good and valuable consideration, Applicant sells, assigns and transfers unto Assignee the full and exclusive right to the Invention in all countries and the entire right, title and interest in and to any and all patents which may be granted therefore in all countries, and all rights and privileges under the patents that may be granted therefor, including the right to claim the benefit of an earlier filing date for the same invention in another country. Applicant hereby authorizes and requests the Director of the U.S. Patent and Trademark Office, and any corresponding authorities in other countries, to issue said patent(s) to Assignee fully and entirely.

For the same consideration, Applicant hereby agrees to promptly communicate to the Assignee, or its assigns, full and complete information concerning the Invention and agrees to cooperate at any time upon request of said Assignee, or its assigns, at Applicant's expense, in the procurement of patent protection to cover the Invention, including the execution of new, divisional, continuing, reexamination and reissue applications. Applicant will make all rightful oaths, will testify in any proceedings in the United States Patent Office, or any corresponding authority, and/or in the courts, and generally will do everything lawfully possible to aid Assignee, its successors, assigns and nominees to obtain, enjoy and enforce their patent rights.
