WHEREAS, Barbaro Technologies, having an address of 119 Juniper Road, Belmont, MA 02478, ("Assignor"), owns and holds all right, title and interest in, to and under the inventions as set forth in the attached Schedule A; and

WHEREAS, Frances BARBARO ALTIERI, having an address of 58-60 Waverley Street, Belmont, MA 02478, ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said inventions, and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefore;

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignors do hereby sell, assign, transfer and set over unto Assignee, its legal representatives, successors and assigns, the entire right, title and interest in and to said invention, including the full right to claim for any such application all benefits and priority rights under any applicable convention and the right to sue for past or future infringement, as set forth in the applications and patents referenced on Schedule A, including any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may have or may be issued for said inventions;

UPON SAID CONSIDERATION, hereby agree with the said Assignee that Assignors will not execute any writing or do any act whatsoever conflicting with this sale, assignment or transfer, and that Assignors will, at any time upon request, without further or additional consideration but at the expense of said Assignee, assist Assignee in every way to obtain and execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to enforce patents, copyrights, and other rights or registrations on this invention, in order to perfect the Assignee's enjoyment of this grant, and to render all necessary assistance in making application for and obtaining original, divisional, continuations, continuations-in-part, reexamined, reissued, or extended Letters Patent of the United States or of any and all foreign countries on said invention, and in enforcing any rights or choses in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements, declarations, and other affidavits, it being understood that the foregoing covenant and agreement shall bind Assignors, their legal representatives, successors and assigns, and inure to the benefit of said Assignee, its legal representatives, successors and assigns;

WHEREAS, if the Assignee is unable for any reason whatsoever to secure the Assignor's signature to any document it is entitled to under this Assignment, Assignor hereby irrevocably designates and appoints the Assignor and its duly authorized officers and agents, as Assignee's agents and attorneys-in-fact with full power of substitution to act for and on its behalf and instead of Assignor, to execute and file any such papers and to do all other lawfully permitted acts to further the purposes of the foregoing with the same legal force and effect as if executed by Assignor;
