ASSIGNMENT OF PATENTS

THIS ASSIGNMENT OF PATENTS is made as of December 19, 2019, by Neograft Technologies, Inc., a Delaware corporation (the "Assignor"), to Xeltis, AG, a Swiss Aktiengesellschaft (the "Assignee").

WHEREAS, Assignor is the owner of the patents and patent applications listed on Schedule A attached hereto and the invention or inventions described therein (collectively, the "Patents");

WHEREAS, Assignor and Assignee have entered that certain Patent Purchase Agreement, dated substantially as of the date hereof, that transfers and assigns to Assignee all of Assignor's right, title, and interest in and to the Patents; and

WHEREAS, Assignor and Assignee wish to enter this recordable document evidencing such assignment,

NOW, THEREFORE, in consideration of the foregoing and of other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, Assignor does hereby transfer and assign to Assignee, and Assignee hereby accepts the transfer and assignment of, all of Assignor's right, title and interest in, to and under the Patents and any patents or patent applications claiming priority thereto, all rights to sue for infringement of any Patent, whether arising prior to or subsequent to the date of this Assignment of Patents, and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States and in any other jurisdiction, the same to be held and enjoyed by Assignee, its successors and assigns from and after the date hereof as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment of Patents had not been made.

Assignor requests that the Commissioner of Patents and Trademarks, any other governmental or judicial entity and any and all foreign countries record Assignee as the assignee and owner of the Patents.

Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment of Patents shall be governed by, and construed and enforced in accordance with, the substantive laws of the State of New York without giving effect to any choice or conflict of laws provision or rule (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

(Remainder of Page Intentionally Left Blank)

IN WITNESS WHEREOF, the parties hereto have caused this Assignment of Patents to be duly executed as of the date first written above.
