**CONFIRMATION OF ASSIGNMENT**

**WHEREAS:** Niklas KOCH, residing at Zum Heidgarten 17, 38448 Wolfsburg, Germany (DE), Christian MERFELS, residing at Adolfstr. 61, 38102 Braunschweig, Germany (DE), and Ugur KEKEC, residing at Am Soltekanpe 75, 30455 Hannover, Germany (DE) (hereinafter referred to as **ASSIGNOR**) has made an inventive contribution to an invention entitled "METHOD FOR CALIBRATING THE ALIGNMENT OF A MOVING OBJECT SENSOR" (hereinafter referred to as **INVENTION**), as set forth in an application for U.S. patent entitled application number 16/728,308 (DE 10 2018 133 693.4), internationally filed on December 28, 2018 (hereinafter referred to as **APPLICATION**);

**WHEREAS:** Volkswagen Aktiengesellschaft, Berliner Ring 2, 38440 Wolfsburg, Germany (DE) (hereinafter referred to as **ASSIGNEE**), was an employer of the **ASSIGNOR** in Germany at the time of the invention and obtained all right, title, and interest in, to, and under the **INVENTION** under the German Act on Employees' Inventions (ArbnErfG) on, or about, 19.10.2018;

**NOW THEREFORE**, it is herewith confirmed that **ASSIGNEE** obtained the full and exclusive right, title, and interest in, to, and under the **INVENTION** from the **ASSIGNOR** including any right to claim priority to any patent and patent applications based on the **INVENTION** as provided in the preceding; and that **ASSIGNEE** has accepted the assignment;

**ASSIGNOR** hereby confirms that he intended to convey the full and exclusive right, title, and interest in, to, and under the **INVENTION** including any right to claim priority to any patent and patent applications based on the **INVENTION** as provided above, even if said conveyance was incomplete or ineffectual.

**ASSIGNEE** hereby confirms that it intended to accept the assignment from **ASSIGNOR**, even if said acceptance was incomplete or ineffectual.

In the event that any right, title, or interest in, to, and under the **INVENTION** should remain with the **ASSIGNOR**, **ASSIGNOR** hereby sells, assigns, and transfers to the **ASSIGNEE** his full and exclusive right, title, and interest in the United States (including its territories and dependencies) and all countries foreign thereto in, to, and under the **INVENTION** (including provisional, non-provisional, utility, divisional, continuing, and reissue applications, and any applications claiming priority from the **INVENTION**, that are based in whole or in part on the **INVENTION**), and any patents (including extensions thereof) of any country that have been or may be granted on the **INVENTION** or any part thereof, and including any right to claim priority to any patent and patent applications based on the **INVENTION** for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged;

**ASSIGNEE** accepts the assignment;

**ASSIGNOR** hereby authorizes and requests the Commissioner for Patents of the United States of America to issue any and all United States Patents that may be granted on the aforesaid applications or any part thereof, in the name of the **ASSIGNEE**;

**ASSIGNOR** hereby grants the attorney or agent of record the power to insert on this agreement any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

In the event that **ASSIGNEE** is unable, after reasonable effort, to secure **ASSIGNOR**'s signature on any application, paper, or other instrument relating to any patent, patent application, letters patent, copyright, or other analogous protection relating to the **INVENTION** in any country, whether because of the **ASSIGNOR**'s mental incapacity, death, or for any other reason whatsoever, said **ASSIGNOR** hereby irrevocably designates and appoints said **ASSIGNEE** and its duly authorized officers and agents as said

ASSIGNOR's agent and attorney in fact to act for and to execute and file any such application, paper, or other instrument on said ASSIGNOR's behalf, and to do all other lawfully permitted acts to further the prosecution and issuance of any patent, patent application, letters patent, copyright, or any other analogous protection related to the INVENTION, with the same legal force and effect as if executed by said ASSIGNOR.

ASSIGNOR hereby covenants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this sale, assignment, and transfer, and that said ASSIGNOR has the right, title, and interest to convey as set forth herein; AND ASSIGNOR further covenants that upon ASSIGNEE's request, he will promptly provide to ASSIGNEE all pertinent facts and documents relating to the aforesaid applications and patents. ASSIGNOR agrees to testify as to the same in any interference or litigation related thereto, and will promptly execute and deliver to said ASSIGNEE, or its legal representatives, or its successor, without further consideration, any and all papers, instruments, or affidavits required to apply for, obtain, maintain, and enforce any patent granted on the aforesaid INVENTION, as may be deemed necessary or desirable by said ASSIGNEE to carry out its duly authorized purposes.

This agreement is governed by the laws of Germany, excluding the UN convention on international sales.
