## ASSIGNMENT

WHEREAS, the Inventor is and was when the SUBJECT MATTER was made by an employee of the Assignor and made the SUBJECT MATTER in the course of their duties as an employee of the Assignor;

WHEREAS, the Inventor has assigned his entire worldwide rights, title and interest in the SUBJECT MATTER to the Assignor, and hereby confirms the assignment to the Assignor in order for the Assignor to assign to the Assignee all its entire worldwide rights, title and interests as further set out in the Assignment; and

WHEREAS, the Assignor is willing to and hereby does assign all its entire worldwide rights, title and interest rights as further set out in the Assignment,

NOW THEREFORE, the Parties agree as follows:

1. The Parties to this Assignment are:
  - a) Vikash Reebye ("the Inventor"),
  - b) Imperial College of Science, Technology and Medicine (ICL) (the "Assignor") and
  - c) MiNA Therapeutics Limited ("the Assignee").
2. The Assignor IN CONSIDERATION of the sum ("the Fee") paid to the Assignor by the Assignee arising from the agreements between the Assignee and the Assignor, the receipt and sufficiency of which is hereby acknowledged by the Assignor HEREBY ASSIGNS to the Assignee the following:
  1. Its entire worldwide right, title, and interest in the invention ("SUBJECT MATTER") that are disclosed in the following provisional application filed under 35 U.S.C. § 111(b), non-provisional application filed under 35 U.S.C. § 111(a), international application filed according to the Patent Cooperation Treaty (PCT), or U.S. national phase application filed under 35 U.S.C. § 371: ("APPLICATION"):

Application No. 62/555,951, entitled "STABILIZED SARNA COMPOSITIONS AND METHODS OF USE" filed on September 8, 2017
  2. Its entire worldwide right, title, and interest in and to: (a) the APPLICATION; (b) all applications claiming priority from the APPLICATION; (c) all provisional, utility, divisional, continuation, substitute, renewal, reissue, and other applications related thereto which have been or may be filed in the United States or elsewhere in the world; (d) all patents (including reissues and re-examinations) which may be granted on the Applications and other intellectual property that may derive priority from or have equivalent claim to or be based upon the Application in any country of the world set forth in (a), (b), and (c) above; and (e) all right of priority in the APPLICATION and in any underlying provisional or foreign application, together with all rights to sue for and recover damages for past acts of infringement, whether based on any patents listed herein, patents issuing from applications listed herein or provisional rights from any patent application listed herein.

3. Assignor agrees that Assignee may apply for and receive patents for SUBJECT MATTER in Assignee's own name.
  4. Assignor and Inventor agree to do the following, when requested, and without further consideration, in order to carry out the intent of this Assignment: (1) execute all oaths, assignments, powers of attorney, applications, and other papers necessary or desirable to fully secure to Assignee the rights, titles and interests herein conveyed; (2) communicate to Assignee all known facts relating to the SUBJECT MATTER; and (3) generally do all lawful acts that Assignee shall consider desirable for securing, maintaining, and enforcing worldwide patent protection relating to the SUBJECT MATTER and for vesting in Assignee the rights, titles, and interests herein conveyed. Assignor further agrees to provide any successor, assignee, or legal representative of Assignee with the benefits and assistance provided to Assignee hereunder.
  5. Assignor represents that Assignor has the rights, titles, and interests to convey as set forth herein, and covenants with Assignee and the Inventor represents he has not made and will not hereafter make any assignment, grant, mortgage, license, or other agreement affecting the rights, titles, and interests herein conveyed.
  6. Assignor and Inventor grant the attorney of record the power to insert on this Assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
  7. Assignor and Inventor acknowledge, pursuant to the laws of the United States of America, the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.
  8. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same Assignment.
3. The validity, construction and performance of this Assignment shall be governed by English law, and the Parties submit to the jurisdiction of the English courts in respect of any dispute arising in connection therewith.

IN WITNESS WHEREOF, the parties, intending to be legally bound, have caused this Assignment Agreement to be executed.
