ASSIGNMENT OF PATENTS

THIS ASSIGNMENT OF PATENTS (this “**Assignment**”) dated and effective as of October 3, 2016, is entered into by and between Thomson Reuters Global Resources, an unlimited company organized under the laws of the Republic of Ireland with an office at Neuhofstrasse 1, 6340 Baar, Switzerland (“**Assignor**”) and Camelot UK Bidco Limited, a private limited liability company organized under the laws of England and Wales with an office at 17 Duke of York Street, London, United Kingdom, SW1Y 6LB (“**Assignee**”). Assignor and Assignee are collectively referred to herein as the “**Parties**.”

WHEREAS, pursuant to that certain Stock and Asset Purchase Agreement, dated as of July 10, 2016 (the “**Agreement**”) the Seller Parties (as defined therein) agreed to cause Assignor to assign, convey and transfer to Assignee, among other things, all of Assignor’s rights, title, and interest in and to those registered patents and patent applications set forth on Schedule A attached hereto (the “**Patents**”).

WHEREAS, in accordance with and subject to the terms of the Agreement, Assignor has agreed to execute this Assignment.

NOW, THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereto, intending to be legally bound hereby, agree as follows:

Section 1. Definitions. All capitalized terms not otherwise defined in this Assignment, as used in this Assignment, shall have the respective meanings ascribed to such terms in the Agreement.

Section 2. Assignment. Assignor hereby assigns, conveys and transfers to Assignee, and Assignee hereby accepts, all of Assignor’s rights, title, and interest in, to, and under the Patents, and all renewals, related continuations, continuations-in-part, divisionals, reissues, re-examinations, substitutions, and extensions thereof, and all benefits, privileges, causes of action, and remedies relating thereto throughout the world, including, without limitation, all of Assignor’s rights to: (a) apply for and maintain all applications, registrations, and/or extensions thereof; (b) claim priority under any applicable law or international convention, (c) bring actions and recover damages for past, present and future infringement or other violation thereof; and (d) grant licenses or other interests therein, provided, however, that this Assignment shall not constitute an assignment to the extent that, if it were to convey, assign or transfer an interest in and to the Patents, it would impair the subsequent lawful and effective execution and recordation of a necessary country-specific form of assignment..

Section 3. Recording the Assignment. The Parties hereby authorize the relevant authority at the United States Patent and Trademark Office and at corresponding agencies in relevant jurisdictions to record this Assignment and record Assignee as the owner of the Patents and to issue any and all Patents to Assignee, as assignee of Assignor’s entire right, title and interest in, to, and under the same.

Section 4. Stock and Asset Purchase Agreement Governs. Notwithstanding any other provisions of this Assignment to the contrary, nothing contained herein shall in any way supersede, modify, replace, amend, change, rescind, waive, exceed, expand, enlarge or in any way affect the provisions, including the warranties, covenants, agreements, conditions, representations or, in general any of the rights and remedies, and any of the obligations set forth in the Agreement, if any, nor shall this Assignment expand or enlarge any remedies under the Agreement.

Section 5. Counterparts. This Assignment may be executed by the Parties hereto in separate counterparts, each of which when so executed and delivered shall be an original, and all of which together shall constitute one and the same instrument.

Section 6. Governing Law. This Assignment, the negotiation, execution or performance of this Assignment and any disputes arising under or related hereto (whether for breach of contract, tortious conduct or otherwise) shall be governed and construed in accordance with the Laws of the State of New York, without reference to its conflicts of law principles.

Section 7. Further Assurances. Assignor shall provide Assignee and its successors and assigns reasonable cooperation and assistance at Assignee's request and expense (including the execution and delivery of any and all country specific forms of assignment, affidavits, declarations, oaths, exhibits, powers of attorney or other documentation as may be reasonably required) as are reasonably requested by Assignee to effect, register or maintain the rights assigned herein.

[Signature page follows.]

IN WITNESS WHEREOF, the Parties hereto have duly executed and delivered this Assignment as of the date first written above.
