AND ASSUMPTION AGREEMENT**

This **INTELLECTUAL PROPERTY ASSIGNMENT AND ASSUMPTION AGREEMENT** (“IP Assignment”) is made and effective as of December 20, 2019 (“Effective Date”) among the Seller Parties listed on the signature pages hereto (each, a “Seller Party”), in favor of Maternity IP Holdings, LP, a Delaware limited partnership (“Buyer”).

WHEREAS, pursuant to Asset Purchase Agreement, dated December 20, 2019, by and among the Seller Parties thereto and Marquee Brands, LLC (as amended, the “Asset Purchase Agreement”; capitalized terms used herein but not otherwise defined herein have the meanings given to them in the Asset Purchase Agreement), Seller Party sold, agreed to sell, transfer, assign, convey and deliver to Buyer, and Buyer agreed to purchase, acquire, assume and accept from Seller Party (free and clear of any and all Encumbrances, other than Permitted Encumbrances) all of Seller Party’s right, title and interest in and to the Transferred Company Intellectual Property, which includes the Intellectual Property set forth on Schedule 1 attached hereto, and Seller Party agreed to execute and deliver this IP Assignment, including, but not limited to, for recording with the United States Patent and Trademark Office and corresponding entities or agencies in any applicable jurisdictions.

NOW, THEREFORE, in consideration of the mutual promises, agreements, representations, warranties and covenants contained herein, and intending to be legally bound hereby, each of the parties hereby agrees as follows.

1. “Intellectual Property” means any and all intellectual property and other similar proprietary rights in any jurisdiction in the world including any of the following: (a) all patents, utility models and design and utility patents and applications therefor, and all reissues, divisions, renewals, extensions, provisionals, continuations, continuations-in-part, reexaminations, and extensions thereof, any counterparts claiming priority therefrom, patents of importation/confirmation, certificates of inventions, certificates of registration, and like rights; (b) all inventions (whether patentable or not), invention disclosures and improvements, all ideas (including product, packaging, and store concepts, designs, and specifications), all trade secrets (including those trade secrets defined in the United States Uniform Trade Secrets Act and under corresponding foreign Law), formulas, compositions, processes, techniques, and confidential information, including customer, supplier, and vendor information, product specifications, customer lists, price lists, and other confidential know-how (collectively, “Trade Secrets”); (c) all published and unpublished works of authorship (whether copyrightable or not) (including samples, press books, artwork, pictures, photographs, billboards, promotional and advertising materials, and historical archives), copyrights, mask works, data, databases and other compilations of information, copyright and mask work registrations and applications, and all renewals, extensions, restorations, and reversions thereof, as well as all moral rights and rights of attribution related thereto; (d) all industrial designs and any registrations and applications therefor; (e) all trade names, fonts, logos, labels, designs,

trademarks and service marks, trade dress, certifications marks, slogans, brand names, corporate names, assumed names, business names, and all other indicia of origin, whether registered or unregistered, including the goodwill of the business symbolized thereby and all registrations and applications therefor (including intent-to-use applications) (collectively, "Trademarks"); (f) all rights in software, source code, object code, and documentation; (g) uniform resource locators, website addresses, website content, social media handles and accounts, domain names, and any registrations and applications therefor ("Internet Properties"); (h) all rights of publicity, personality rights, and other rights of use and exploitation relating to the Business, including any rights of sponsorship or endorsement, as well as all rights to use the name, likeness, signature, and biographical information of any individual; (i) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing, (j) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach or default, unfair competition and/or deceptive trade practices related to the foregoing, and all other related claims and causes of action, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages, and (k) any similar, corresponding or equivalent rights to any of the foregoing.

2. Assignment. Seller Party hereby irrevocably sells, transfers, assigns, conveys and delivers to Buyer, and Buyer purchases, acquires, assumes and accepts from Seller Party (free and clear of any and all Encumbrances, other than Permitted Encumbrances) all of Seller Party's right, title and interest in, to and under the Transferred Company Intellectual Property, including the Intellectual Property set forth on Schedule 1 attached hereto. Seller Party hereby unconditionally waives (to the extent waivable) all non-assignable moral, publicity or other rights relating to the Transferred Company Intellectual Property and any related claims therein to Buyer, including without limitation rights under the Visual Artists Rights Act of 1990 and any and all rights of identification of authorship, paternity, integrity, disclosure, withdrawal, reversion, termination, restriction or limitation on use or subsequent modifications, and approval or consent with respect to any modification, alteration, disassembly, removal, distortion, or mutilation of the Transferred Company Intellectual Property.

3. Recordation and Further Actions. Seller Party hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks in the United States Patent and Trademark Office, and the officials of corresponding entities or agencies in any applicable jurisdictions throughout the world to record and register this IP Assignment, or such similar type assignment corresponding to local jurisdictions, upon request by Buyer. Seller Party and Buyer will execute, acknowledge and deliver all such further conveyances, notices, assumptions, assignments, releases, affidavits, declarations, oaths, exhibits, powers of attorney and other instruments, and will take such further actions, as may be reasonably necessary to consummate more effectively the conveyance, transfer and delivery to Buyer and its respective designee, successors or assigns, of all rights, titles and interests to the Transferred Company Intellectual Property intended to be

conveyed to Buyer under this IP Assignment or as reasonably requested by Buyer and to otherwise make effective the transactions contemplated by this IP Assignment and to obtain, maintain, perfect, and protect the Intellectual Property and Buyer's rights therein.

In the event of conflict between the Asset Purchase Agreement and this IP Assignment, the Asset Purchase Agreement shall control. This IP Assignment (including Schedule 1 attached hereto and the documents and instruments referred to in this IP Assignment) and the Asset Purchase Agreement constitute the entire agreement of the parties and supersede all prior agreements, arrangements or understandings, whether written or oral, among the parties with respect to the subject matter of this IP Assignment, except that the parties hereto acknowledge that any confidentiality agreements heretofore executed among any of the parties will continue in full force and effect and that this IP Assignment does not supersede the terms of the Asset Purchase Agreement. This IP Assignment may be executed in one or more counterparts, all of which shall be considered one and the same agreement, and shall become effective when each party hereto shall have received counterparts hereof signed by each of the other parties hereto.
