PATENT ASSIGNMENT

In consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration paid to each of the undersigned, **Darren L. Stutesman** and **Stewart E. Gardner**, makers of an invention which is the subject of an application for a United States Patent, Serial Number **16/504,128** filed **July 5, 2019** entitled **Platform Assembly** hereinafter (the "Application") hereby sell, assign, and set over to **Cass Hudson Co., Inc.**, an Indiana corporation having its principle place of business at 2300 Charlotte Avenue, Elkhart, IN 46617 (hereinafter designated as the "Assignee") their entire right, title, and interest in, to and under the Application, including all priority rights for the United States and for other countries arising therefrom, all inventions therein disclosed, and any and all Letters Patent of the United States and of all other countries, which may be granted for such inventions, or any of them, all such inventions and all rights in such Application and the patent arising therefrom to be held and enjoyed by Assignee for its own use and enjoyment to the full end of the term or terms for which such patents may be granted, as fully and entirely as the same would have been held and enjoyed by them had this assignment and sale not been made.

The undersigned agree to execute all papers necessary in connection with the Application in the United States and counterpart applications in foreign countries and any continuing, divisional, or reissue applications thereof, and any reexamination of any of such applications, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The undersigned agree to execute all papers necessary in connection with any interference which may be declared or litigation concerning the Application, U.S. national counterparts thereof, or continuations, divisions, reissues, or reexaminations thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with such interference or litigation.

The undersigned agree to execute all papers and documents and perform any act which may be necessary in connection with claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

The undersigned agree to do all other acts which, in the opinion of Assignee, may be necessary or desirable to secure the grant of patents to Assignee or its nominees, in the United States and in all other countries where Assignee may desire to have such inventions, or any of them, patented, with specifications and claims in such form as shall be approved by Assignee and to vest and confirm in Assignee or its nominees the full and complete legal and equitable title to all such patents.

The undersigned hereby authorize and request the Commissioner of Patents to issue any and all patents of the United States resulting or following from the Application or any division or divisions or continuing or reissue applications thereof, and any

reexamination of any of such applications, to the said Assignee, as Assignee of the entire interest, and hereby covenant that the undersigned has full right to convey the interest herein assigned, and that the undersigned has not executed, and will not execute, any agreement in conflict herewith.

The undersigned hereby grant the attorney of record the power to insert on this assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
