ASSIGNMENT

THIS ASSIGNMENT, made by me, **Peter G. Piferi**, residing in Orange, California;
WITNESSETH: That,

WHEREAS, I am the sole inventor of certain new and useful improvements in
**EXTENSION TUBE ASSEMBLY AND RELATED MEDICAL FLUID TRANSFER
SYSTEMS AND METHODS** for which U.S. Provisional Application No. 62/912,324 was
filed on October 8, 2019 in the United States Patent and Trademark Office; and

WHEREAS, **MRI Interventions, Inc.**, a Delaware corporation having a principal
place of business at 5 Musick, Irvine, California, 92618, hereinafter referred to as assignee, is
desirous of acquiring the entire right, title, and interest in and to said invention as described
in said provisional application, and in and to any and all Letters Patent which shall be granted
therefor in the United States of America and all foreign countries;

NOW, THEREFORE, To Whom It May Concern, be it known that for good and
valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I have
sold and by these presents do hereby sell, assign, transfer, and convey unto the said assignee,
its successors and assigns, the entire right, title, and interest in and to the said invention and
provisional application, and in and to any and all subsequent patent applications which claim
the benefit of priority from said provisional application including regular utility,
continuations, and continuations-in-part, or divisions thereof, and in and to any and all
Letters Patent of the United States of America and all foreign countries or reissues or other
forms of protection thereof which may be granted for the invention in or on applications
claiming the benefit of priority from said provisional application, for the full end of the term
for which said Letters Patent may be granted along with any term extensions thereof or
therefor, together with the right to claim the benefit of priority from said application in all
foreign countries in accordance with the International Convention, the same to be held and
enjoyed by said assignee, its successors and assigns, as fully and entirely as the same would
have been held and enjoyed by me if this assignment and sale had not been made.

I further covenant and agree that, at the time of the execution and delivery of these
presents, and to the extent not already assigned to the assignee, I possess full title to the
invention and provisional application above-mentioned, and that I have the unencumbered
right and authority to make this assignment.

I further covenant and agree to communicate to said assignee or its representatives
any facts known to me relating to said invention, to testify in any interference or legal

proceedings involving said invention, to execute any additional papers which may be requested to confirm the right of the assignee, its representatives, successors, or assigns to secure patent or similar protection for the said invention in all countries and to vest in the assignee complete title to the said invention and Letters Patent, without further compensation, but at the expense of said assignee, its successors, assigns, and other legal representatives; and I hereby instruct, and further covenant and agree to bind my heirs, legal representatives, and assigns, to do same, without further compensation, but at the expense of said assignee or its representatives.

IN WITNESS WHEREOF, I have hereunto set my hands and seal on this 20th day of NOVEMBER, 2011.
