Patent Assignment

For good and valuable consideration, Full 360 Inc., a corporation of the State of New York, ("Assignor"), hereby assigns and transfers Amarnath Family Inc., a corporation of the State of North Carolina, having an office at 18101 Watercraft Place, Cornelius, NC 28031 ("Assignee") and its successors, assigns and legal representatives, the entire right, title, and interest conveyed to Full 360 Inc., in and to an assignment executed on October 5, 2011, and recorded on July 28, 2016 (Reel/frame# 039502/0775) of an invention related to EVENT SENSING AND META-ROUTING PROCESS AUTOMATION, described in U.S. Patent No. 7,321,983, issued on January 22, 2008, ("Patent") all the rights and privileges in said Patent and under any Patent that may be granted.

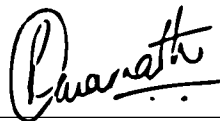

Assignor owns full and complete right, title, and interest in and to the Patent and has the full power to assign its entire right, title, and interest in and to the Patent. Assignor does not have any agreement, license, arrangement, obligation, or understanding, express or implied or by operation of law, with any third party or organization relating to or limiting the ownership of, or right to exercise or transfer, all or any of the Patent and the assignment and transfer of the Patent pursuant to this Agreement will not be in violation of any covenant, agreement or other obligation of Assignor. Assignor has not performed and acts or made any statements, or failed to perform any acts or make any

statements, which would adversely affect either the validity or enforceability of any of the Patent.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Assignee to apply for patents or other forms of protection for said invention and to claim the aforesaid benefit of the right of priority.

Assignor agrees that, when requested, Assignor shall, without charge to Assignee but at its expense, sign all papers, and do all acts which may be necessary, desirable or convenient in connection with said Patent or other forms of protection.
