ASSIGNMENT BY INVENTORS
Attorney Docket No. 3442.007

Juan Vicente CATRET MASCARELL and Carlos CORRECHER SALVADOR, (Inventors) have invented **PET IMAGING DEVICE FOR OBSERVING THE BRAIN**, (the Invention), as described in:

U.S. Patent Application No. 16/901,691, filed June 15, 2020 (the Application).

GENERAL EQUIPMENT FOR MEDICAL IMAGING, S.A. (Assignee), a Spanish corporation with a principal place of business at **C/Jerónimo de Monsoriu, 92 Bajo Izq., Valencia, SPAIN 46022**, is desirous of acquiring the entire right, title, and interest in the Inventions and the Application. Any reference in this assignment to the Assignee encompasses the successors, legal representatives, and assigns of the Assignee.

For good and sufficient consideration, the receipt of which is hereby acknowledged, Inventors hereby transfer to Assignee the entire right, title, and interest in the Inventions and the Application, and in all patents and patent applications covering the Inventions or resulting from the Application, including all provisional, non-provisional, continuation, continuation-in-part, divisional, reissue, reexamination, foreign, and PCT applications, and any patents resulting from these applications, in the United States and in all foreign countries, including in particular the rights of priority originating from the Application.

Inventors hereby represent that, except for any rights that have arisen to Assignee under law or that have already been transferred to Assignee, Inventors have the right to convey the entire right, title, and interest in the Inventions and the Application, and that no assignment, sale, agreement, or encumbrance has been made or will be made which would conflict with this assignment.

Inventors hereby authorize the Director of the U.S. Patent and Trademark Office and the empowered officials of all other governments to issue all patents covering the Inventions or resulting from the Application, to the Assignee.

Inventors hereby agree to carry out in good faith the intent and purpose of this assignment; to communicate to Assignee any facts relating to the Inventions, the Application, and any patents and applications that cover the Inventions or result from the Application; to testify in any legal proceeding when requested to do so; to execute all rightful oaths, assignments, powers of attorney and other papers; to sign all lawful papers, execute all necessary assignment papers to cause any patents resulting from the Application or covering the Inventions to be issued to Assignee; and to generally do everything necessary or desirable to aid the Assignee in attaining, perfecting title in, and enforcing proper protection for the Inventions, the Application and any patents and applications resulting from the Inventions or the Application, in

ASSIGNMENT BY INVENTORS

Attorney Docket No. 3442.007

José María BENLLOCH BAVIERA, Antonio Javier GONZÁLEZ MARTÍNEZ and Laura MOLINER MARTÍNEZ, (Inventors) have invented **PET IMAGING DEVICE FOR OBSERVING THE BRAIN**, (the Invention), as described in:

U.S. Patent Application No. 16/901,691, filed June 15, 2020 (the Application).

CONSEJO SUPERIOR DE INVESTIGACIONES CIENTÍFICAS (Assignee), a Spanish corporation with a principal place of business at Serrano 117, Madrid, SPAIN 28006, and UNIVERSITAT POLITÈCNICA DE VALENCIA (Assignee), a Spanish corporation with a principal place of business at Servicio de Promoción y Apoyo a la Investigación, la Innovación y la Transferencia, Edificio Nexus (6G) - 3ª planta Camino de Vera, s/n, Valencia, SPAIN 46022 (jointly the Assignees), are desirous of acquiring the entire right, title, and interest in the Inventions and the Application. Any reference in this assignment to the Assignees encompasses the successors, legal representatives, and assigns of the Assignees.

For good and sufficient consideration, the receipt of which is hereby acknowledged, Inventors hereby transfer to the Assignees the entire right, title, and interest in the Inventions and the Application, and in all patents and patent applications covering the Inventions or resulting from the Application, including all provisional, non-provisional, continuation, continuation-in-part, divisional, reissue, reexamination, foreign, and PCT applications, and any patents resulting from these applications, in the United States and in all foreign countries, including in particular the rights of priority originating from the Application.

Inventors hereby represent that, except for any rights that have arisen to the Assignees under law or that have already been transferred to the Assignees, Inventors have the right to convey the entire right, title, and interest in the Inventions and the Application, and that no assignment, sale, agreement, or encumbrance has been made or will be made which would conflict with this assignment.

Inventors hereby authorize the Director of the U.S. Patent and Trademark Office and the empowered officials of all other governments to issue all patents covering the Inventions or resulting from the Application, to the Assignees.

Inventors hereby agree to carry out in good faith the intent and purpose of this assignment; to communicate to the Assignees any facts relating to the Inventions, the Application, and any patents and applications that cover the Inventions or result from the Application; to testify in any legal proceeding when requested to do so; to execute all rightful oaths, assignments, powers of attorney and other papers; to sign all lawful papers, execute all necessary assignment papers to cause any patents resulting from the Application or covering the

Inventions to be issued to the Assignees; and to generally do everything necessary or desirable to aid the Assignees in attaining, perfecting title in, and enforcing proper protection for the Inventions, the Application and any patents and applications resulting from the Inventions or the Application, in the United States and in all other countries, all without further consideration, but at the expense of the Assignees.

Inventors hereby grant to the Assignees the right to sue for past, present and future infringement of any patents covering the Inventions or resulting from the Application.

Inventors grant to the Assignees and the Assignees' attorneys the power to insert into this assignment any information necessary to comply with the rules of the United States Patent and Trademark Office for recordation of this Assignment.
